

**THE GENERAL CONTRACTOR FOR
YOUR BUSINESS HEADACHES**

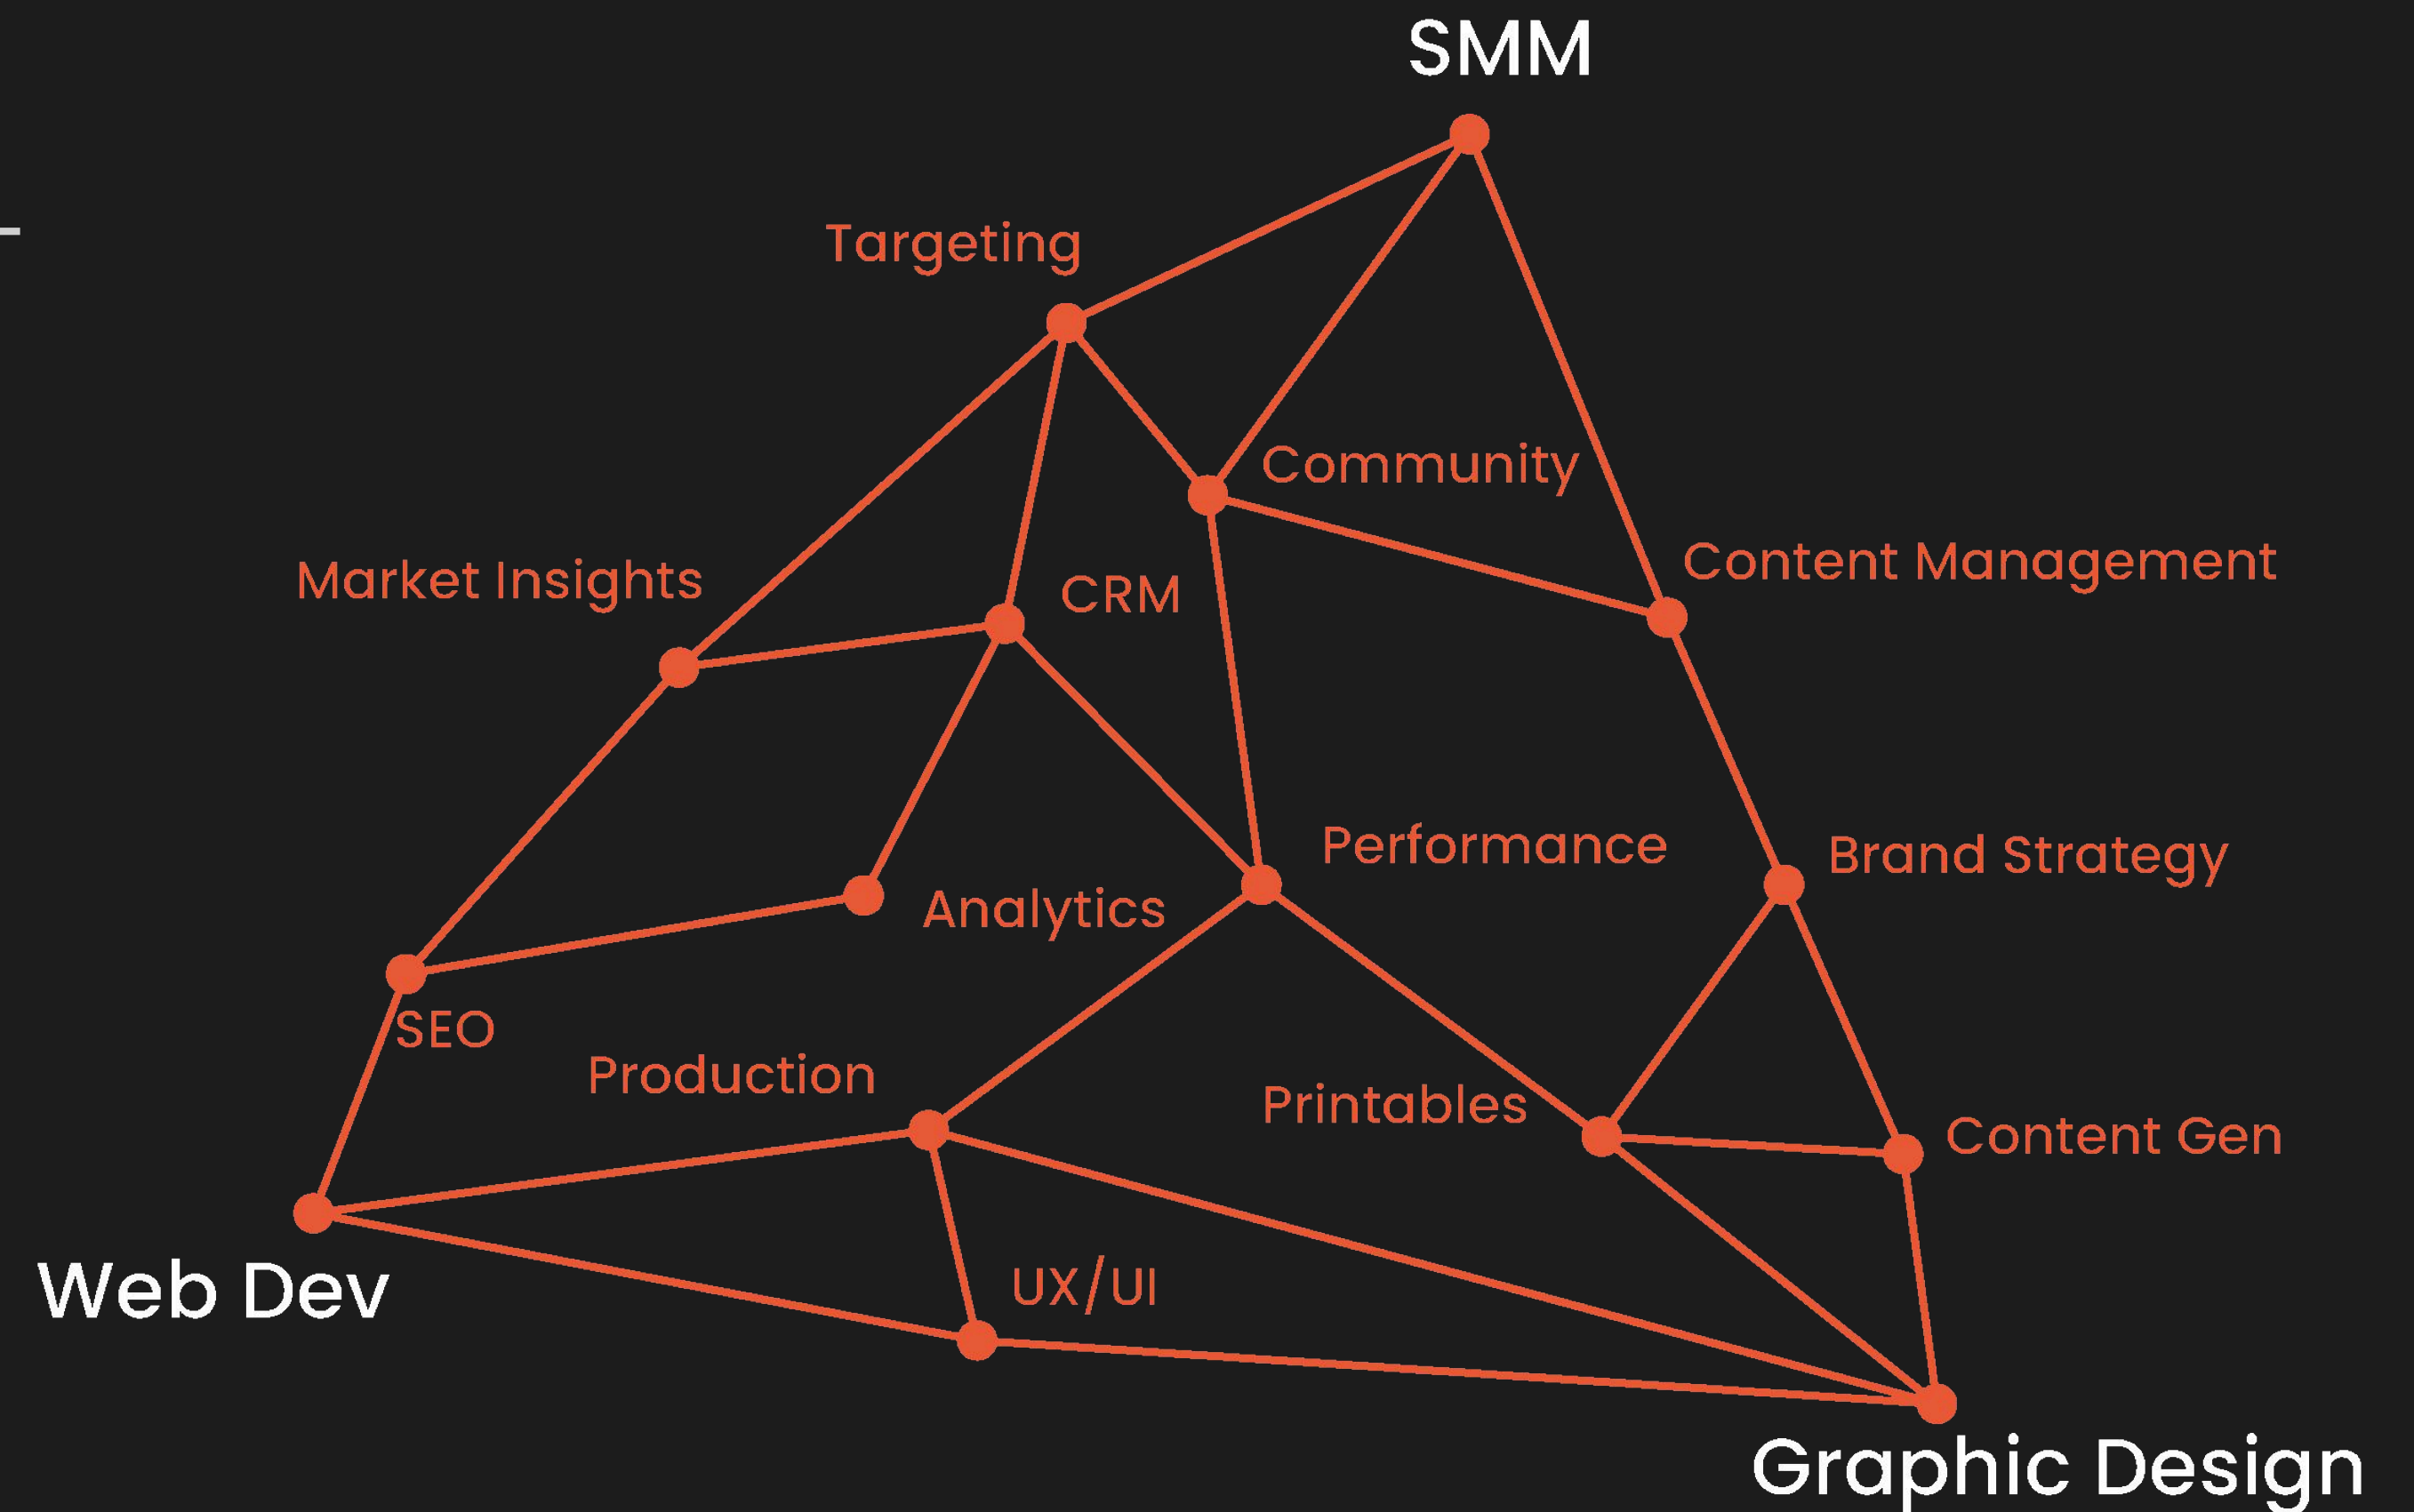

YOU DON'T NEED A GROUP FREELANCERS - YOU NEED A PARTNER

We're your full-cycle marketing team — sharp, effective, and simple.

We cover:

- Design (logos, brand identity, visuals)
- Marketing (social media, strategy, paid ads)
- Website development
- Photoshoots + visuals
- Branding in real life (printables, signage, menus, packaging)

MARKETING

Marketing isn't a side job.

And trying to juggle campaigns, strategy, content, and whatever the hell “conversion goals” are — while running a business — is a great way to burn out.

We cover the part where your brand actually gets seen, heard, and understood. From socials to ads, from voice to visuals — we make sure people know what you're about before you even open your mouth.

You've got a business to run – **trust** us to do the rest.

SOCIAL MEDIA MARKETING

Social-media marketing isn't tossing up a picture, adding hashtag, and hope for the best.

It's **structure**. It's **timing**. It's knowing **who** you're talking to and **why**.

Every post, every story, every move—there's a reason behind it. Otherwise it's just noise. We don't do noise.

SMM's not one-size-fits-all — so we don't treat it that way. Different brands, different goals, different budgets.

OTHER MARKETING SERVICES

Paid Ads Setup Meta (One time) €500

We build your campaign structure, research your audience, target the right people, and get your first ads live. One time fee. 1 ad campaign (max 1 month). The budget of the ad campaign is separated and must be paid by the client in advance.

Ongoing Ad Campaign Management €500 / month

Ongoing ad oversight: budgets, testing, creative tweaks — you stay visible, we handle the grind. Subscription based. The budget of the ad campaign is separated and must be paid by the client in advance

Content Strategy €350

The basic blueprint. We define your brand's vibe, your goals on social media, what you should be saying — and who you're saying it to. Keeps things simple, focused, and aligned.

SMM strategy €700

The full playbook for how your brand should show up online. Voice, values, brand character, audience research, content types, goals, and a roadmap to grow — not just post. It's what guides the whole content, not just a few posts.

Brandbook €1500

Everything. The strategy, the visuals, the tone, the rules — all in one place. Final result of design and marketing departments. If your brand was a person, this would be their full identity doc. For serious brands who don't want to explain themselves twice.

DESIGN

The first impression happens before a single word is read.

We don't hand you some AI-spat logo or overused font from a template site. Instead, we design visuals that truly fit your brand—how it moves, what it represents, and the feeling you want to spark at first sight.

That one glance they get? Yeah, it matters.
Let's make it count.

BRAND LAYERS

Here's how it works:

- We start with the **Logo** — the mark.
- Then we build out the **Logobook**: all the logo versions, basics, how to use it right.
- Logobook becomes part of the **Brand Guidelines** — visual rules, templates, mockups, examples, the structure.
- And when you want the full story — the voice, tone, audience, strategy, the real result of marketing with design mix — it turns into a proper **Brandbook**.

Doesn't matter if you've got a sketch or nothing at all. We'll build what your brand needs — from the ground up.

DESIGN SERVICES

Logo Design

€350

Three strong ideas. One clean direction. We keep it simple, sharp, and built to work — online, printed, or on your shop window. 1 revision is included in price

Logobook

€500

A full set of logo versions for different uses, platforms, and sizes. You get examples, patterns, safe zones, and even mockups. Anyone can work with your logo after this — without messing it up.

Brand Guidelines

€700

How your brand looks and behaves. Logo rules, fonts, colors, templates, mockups, and where to draw the line. Helps anyone — designer, printer, random cousin — get it right without guessing.

Extra review round

€80

Need one more change after final delivery? No problem — this adds an extra revision.

Signboard Design (metal, storefront, etc.)

€250

We design signage that fits your space and your brand — ready for production.

DESIGN SERVICES

Menu simple €120

Mostly text? Clean and easy.
We'll give you two layout options that make your menu readable and on-brand.

Complex menu/ Brochure Design €400

Multi-page or detailed layouts designed to be clean, readable, and fully branded.

Flatlays & Print Visual Mockups €80

Styled visuals of your products, printables, or merch — useful for ads, socials, or stores.

Packaging Mockup (5) €300

Five clean, realistic packaging visuals to show how your product will look in the real world.

Simple Poster / Flyer Design €120

Straightforward layout with clear message — ideal for promotions or in-store use.

Business Card Design €80

Minimal, sharp, and on-brand — the kind of card people remember (and don't toss).

Branded Gift / Greeting Card €120

Custom-designed cards for holidays, openings, or client gifting — brand-consistent and personal.

WEB DEVELOPMENT

Looks matter, but performance matters more. We build sites that load quickly, navigate clearly, and adapt smoothly to every screen size. Because if a page drags on mobile or looks off on desktop, that's all people will remember—and not in a good way.

Your website is your handshake. It's how people meet your brand — and decide if it's worth sticking around.
We make that count.

WEBSITE DEVELOPMENT

One page website €1500

Custom-designed, responsive site with clean UX — made to feel like a real brand.

Shopify / WooCommerce / E-comm Setup Custom quote

We design and build your shop properly — no bloated templates, just a clean user path that sells.

Hourly rate programming €50 / hour

We are open for different projects and do everything to fit exactly your needs. So if you want some extra or something other than one page website – we can discuss it.

SEO Basics

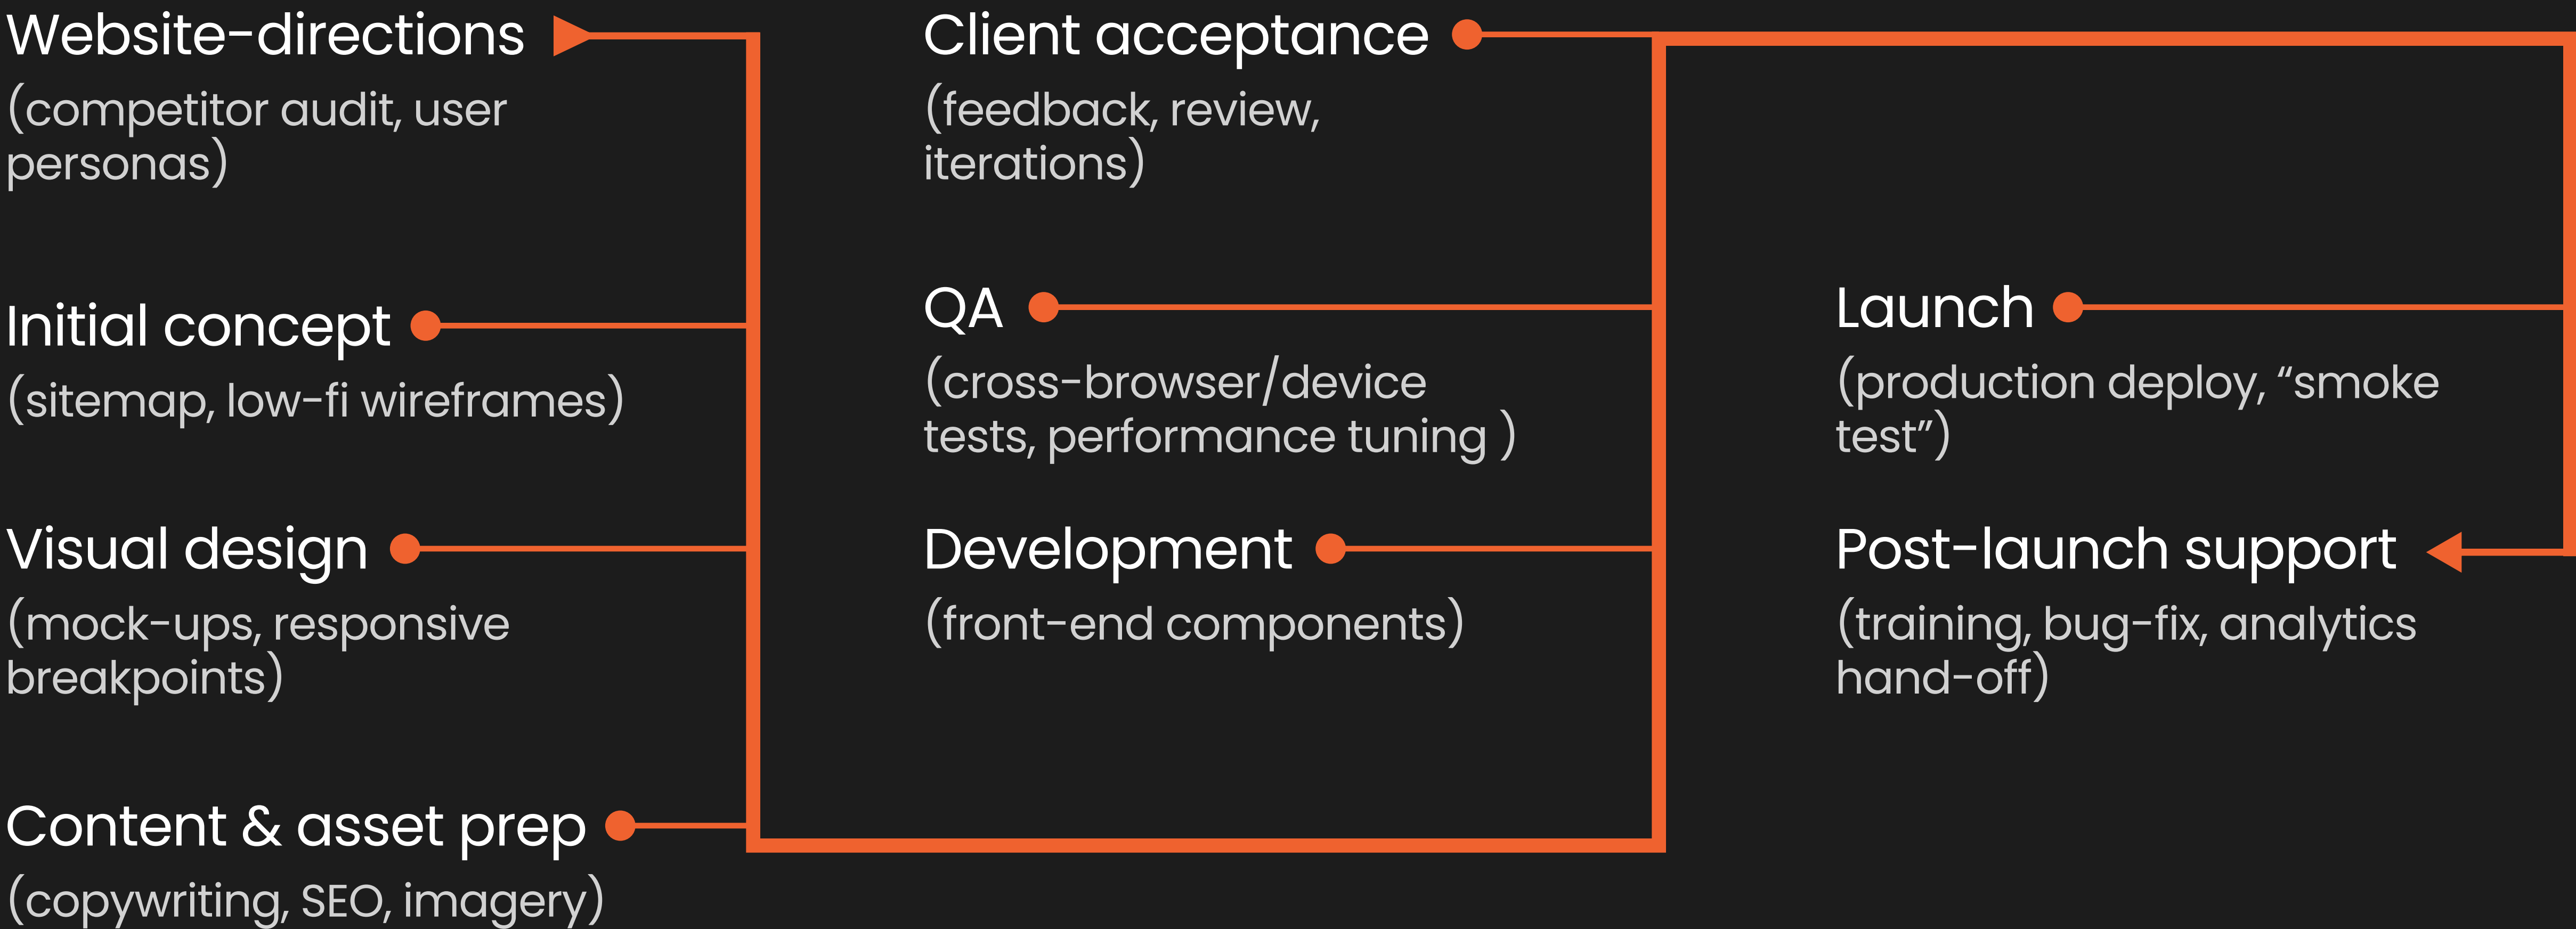

But if you need something heavier — like extra pages, bookings, 3D scrolling, more interaction — we’ve got a **Complex Website** setup too. It’s basically a bigger version of the same care, multiplied.

We can build whatever you need. Just say the word and we’ll make it work.

WEB DEVELOPMENT

Here's how our website development timeline looks:

EXTRA

We're not the agency that just checks boxes. Need help prepping files for print? Sorting technical stuff on your site? Extra admin hands for launch week? We're there.

When we say full-cycle, we mean it. If your brand needs it — it's on the table.

EXTRA / PROJECT-BASED SERVICES

Concept-to-print support €20/hour

Signage & production. We don't stop at the design — we help make it real. From printer calls to production specs.

On-demand Visual Work (per hour) €40 / hour

Quick visual work billed hourly — for updates, tweaks, or one-offs.
Only from 5 hours

Administration / technical issues / Copywriting 4 languages €20/hour

Support with multilingual text, platform setup, or handling annoying backend stuff.

Photoshoot with Direction & Styling €150 / hour

We shoot, edit, and deliver branded visuals for your social, web, or ad needs.

Marketing Consultation €100 / hour

You talk, we dig in. We'll take a look at your business, check out your competitors, figure out who your audience actually is — then give you real recommendations you can act on. Just the kind of clarity that's usually missing. In person minimum 2 hours. Could be online - €80 / hour

BUNDLES

Not every business needs the same setup

We've got bundles for just SMM.

Ones for when you're just launching.

And the full-package kind for when you need the whole thing — brand, site, content, ads, all of it.

PORTFOLIO

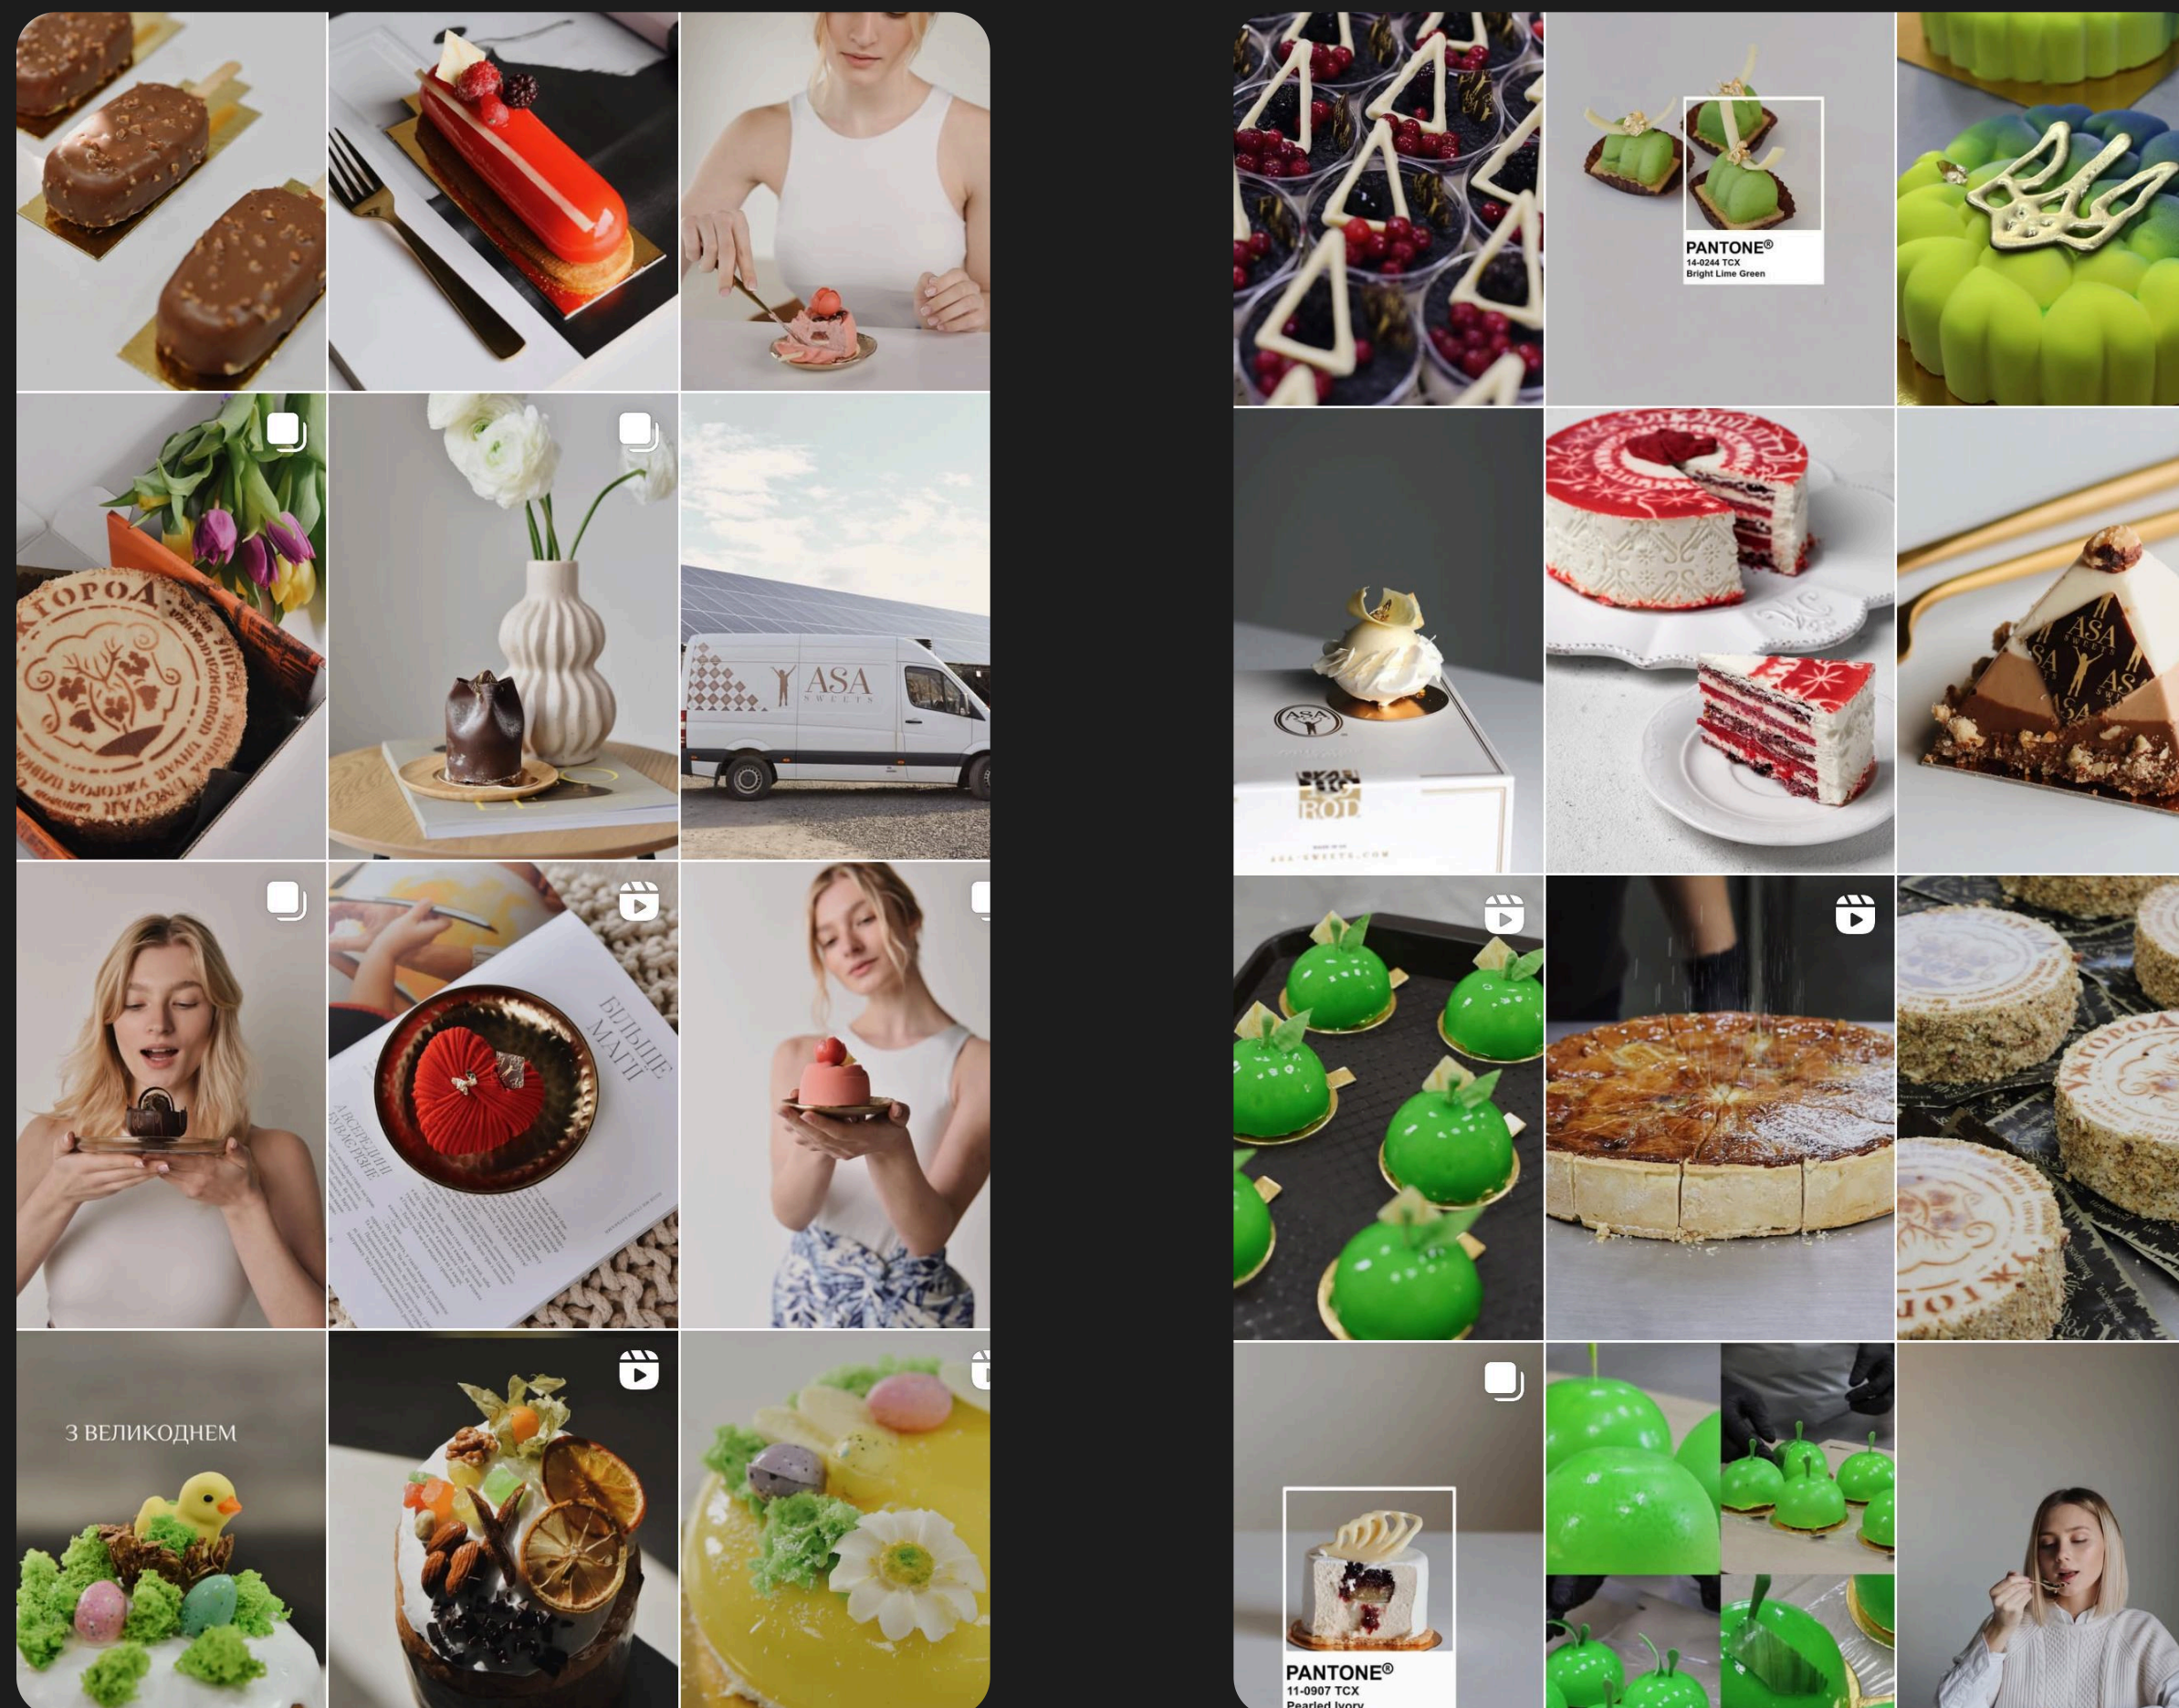

Our portfolio is more than a wall of screenshots; it's proof that strategy meets results.

We've already steered a wide mix of projects—from quick-turn social campaigns to full-scale brand launches. Each one sharpened our skills and stretched our playbook.

Now we're ready to bring that hard-earned experience to your project and make the next success story together.

Asa Sweets

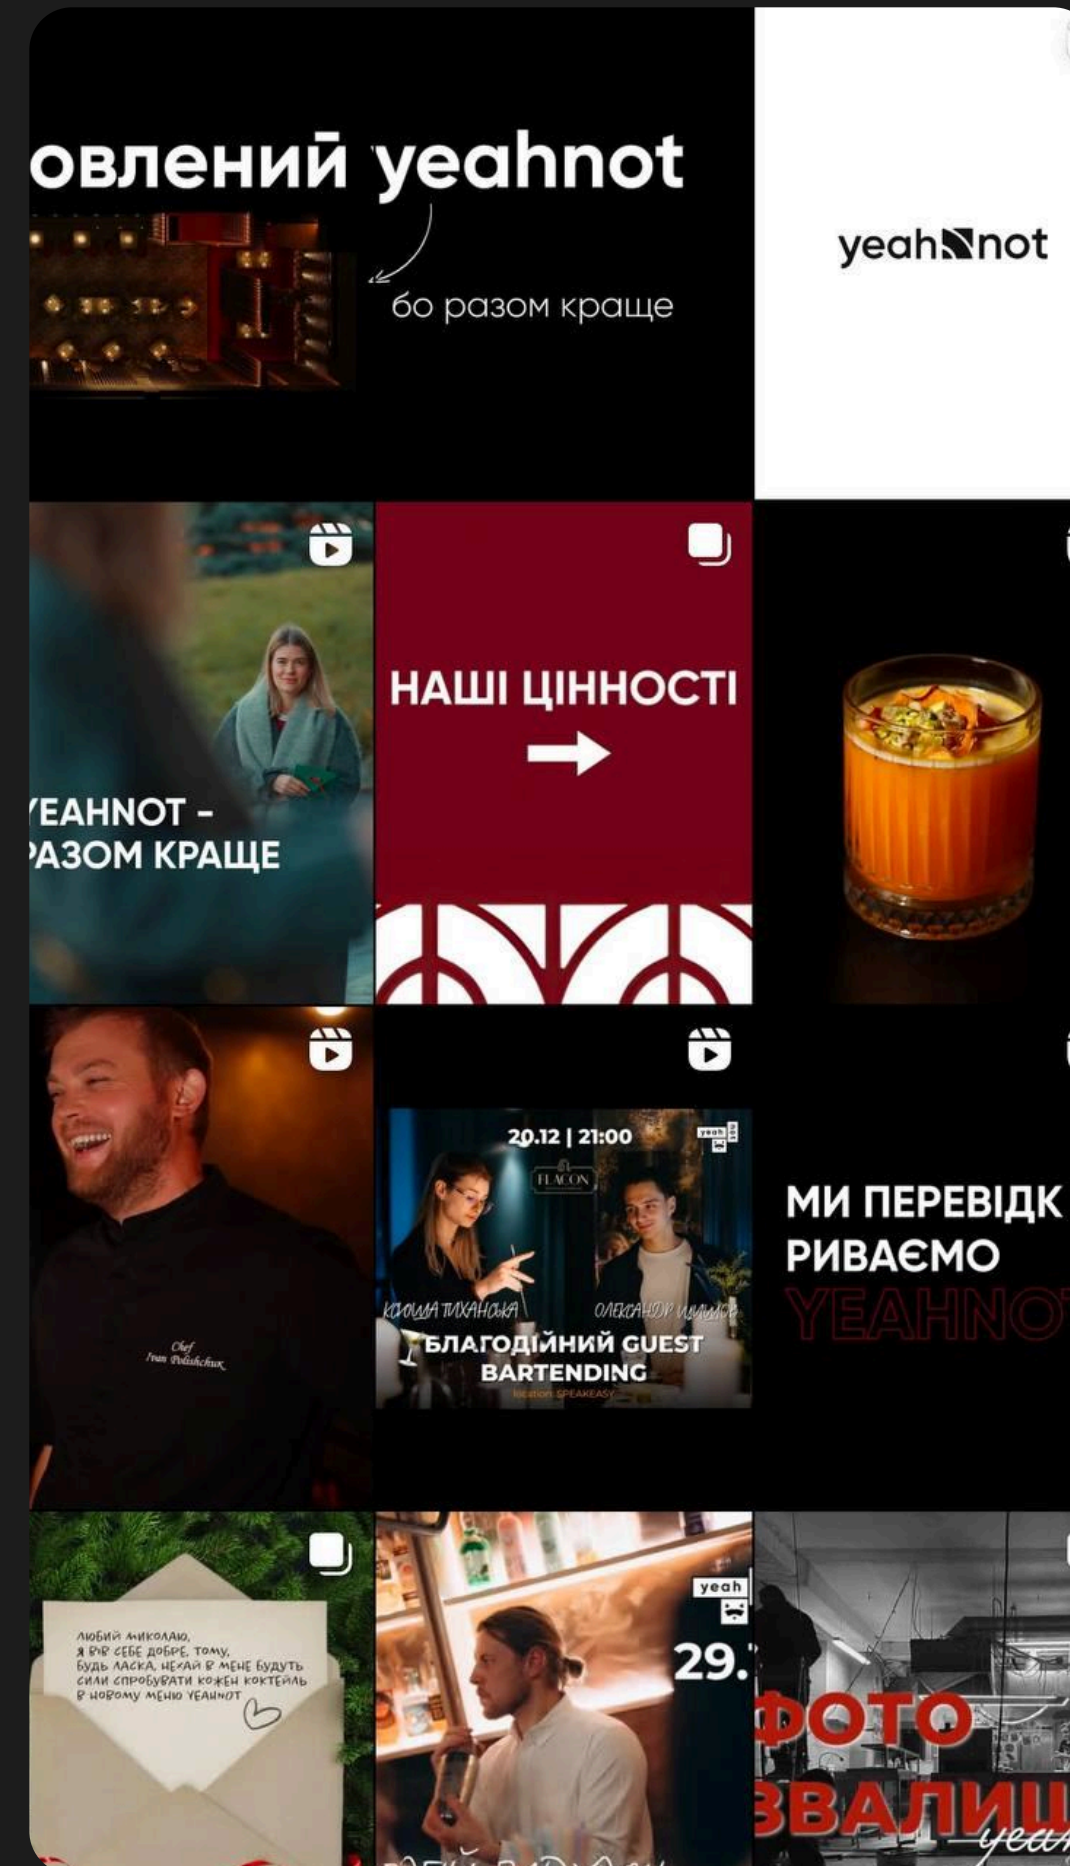

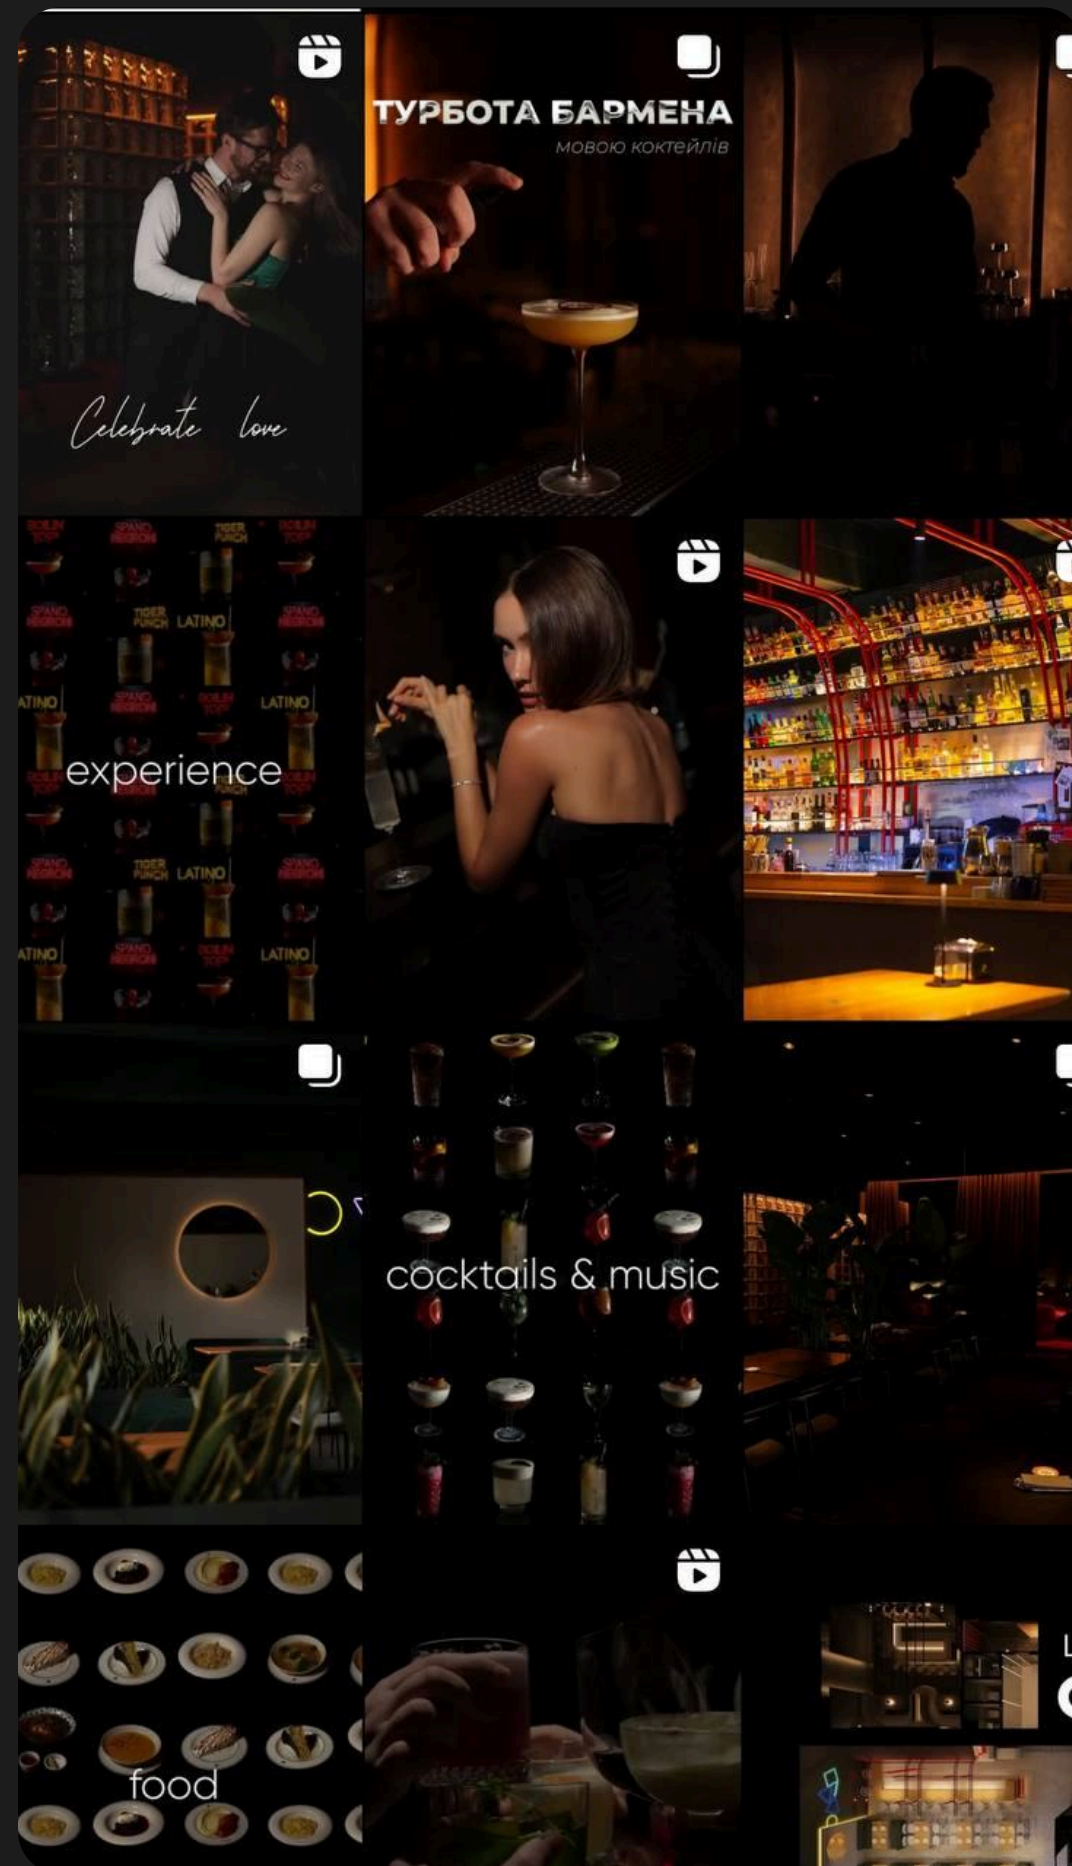

Our team includes specialists who took part in creating a unique and recognizable brand visual and developing categories that allowed the audience to immediately recognize the brand behind the content.

A standout feature of the project was the added focus on the cuts of the pastries.

LINK

Yeah Not Bar&Kitchen

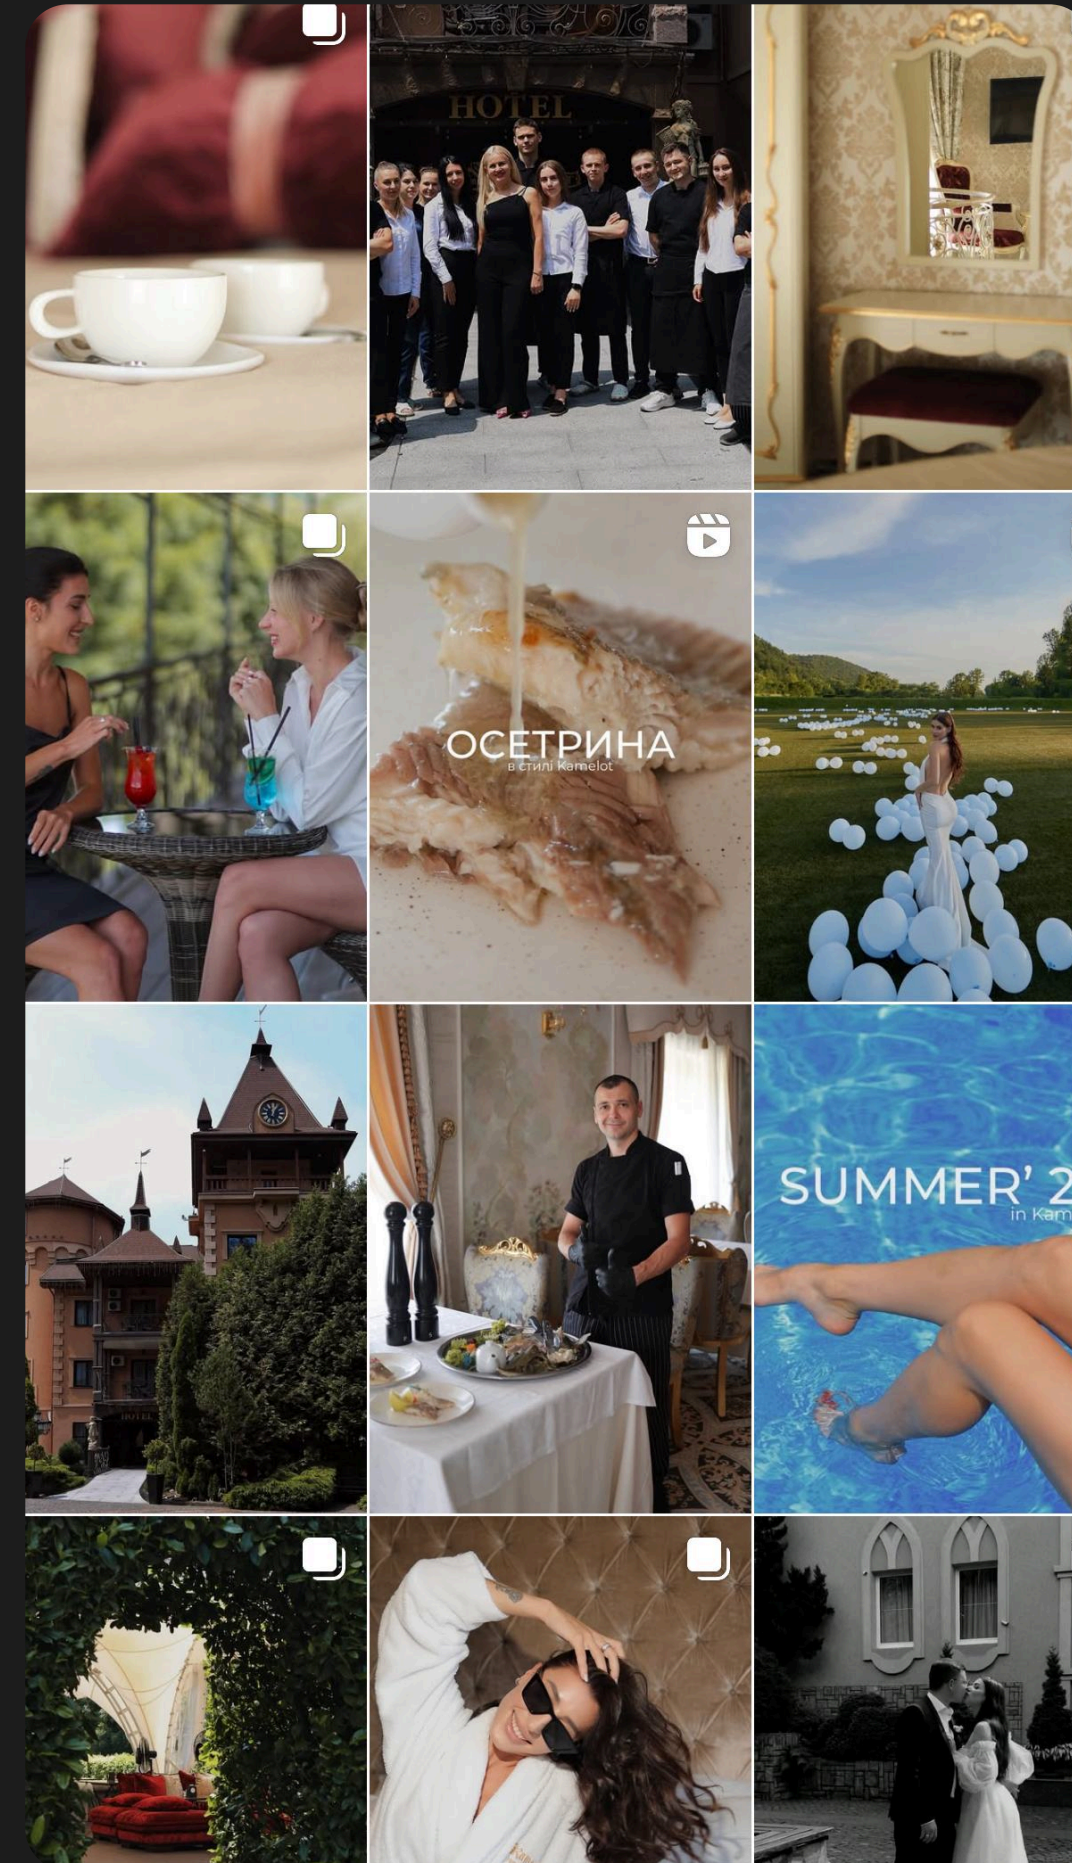

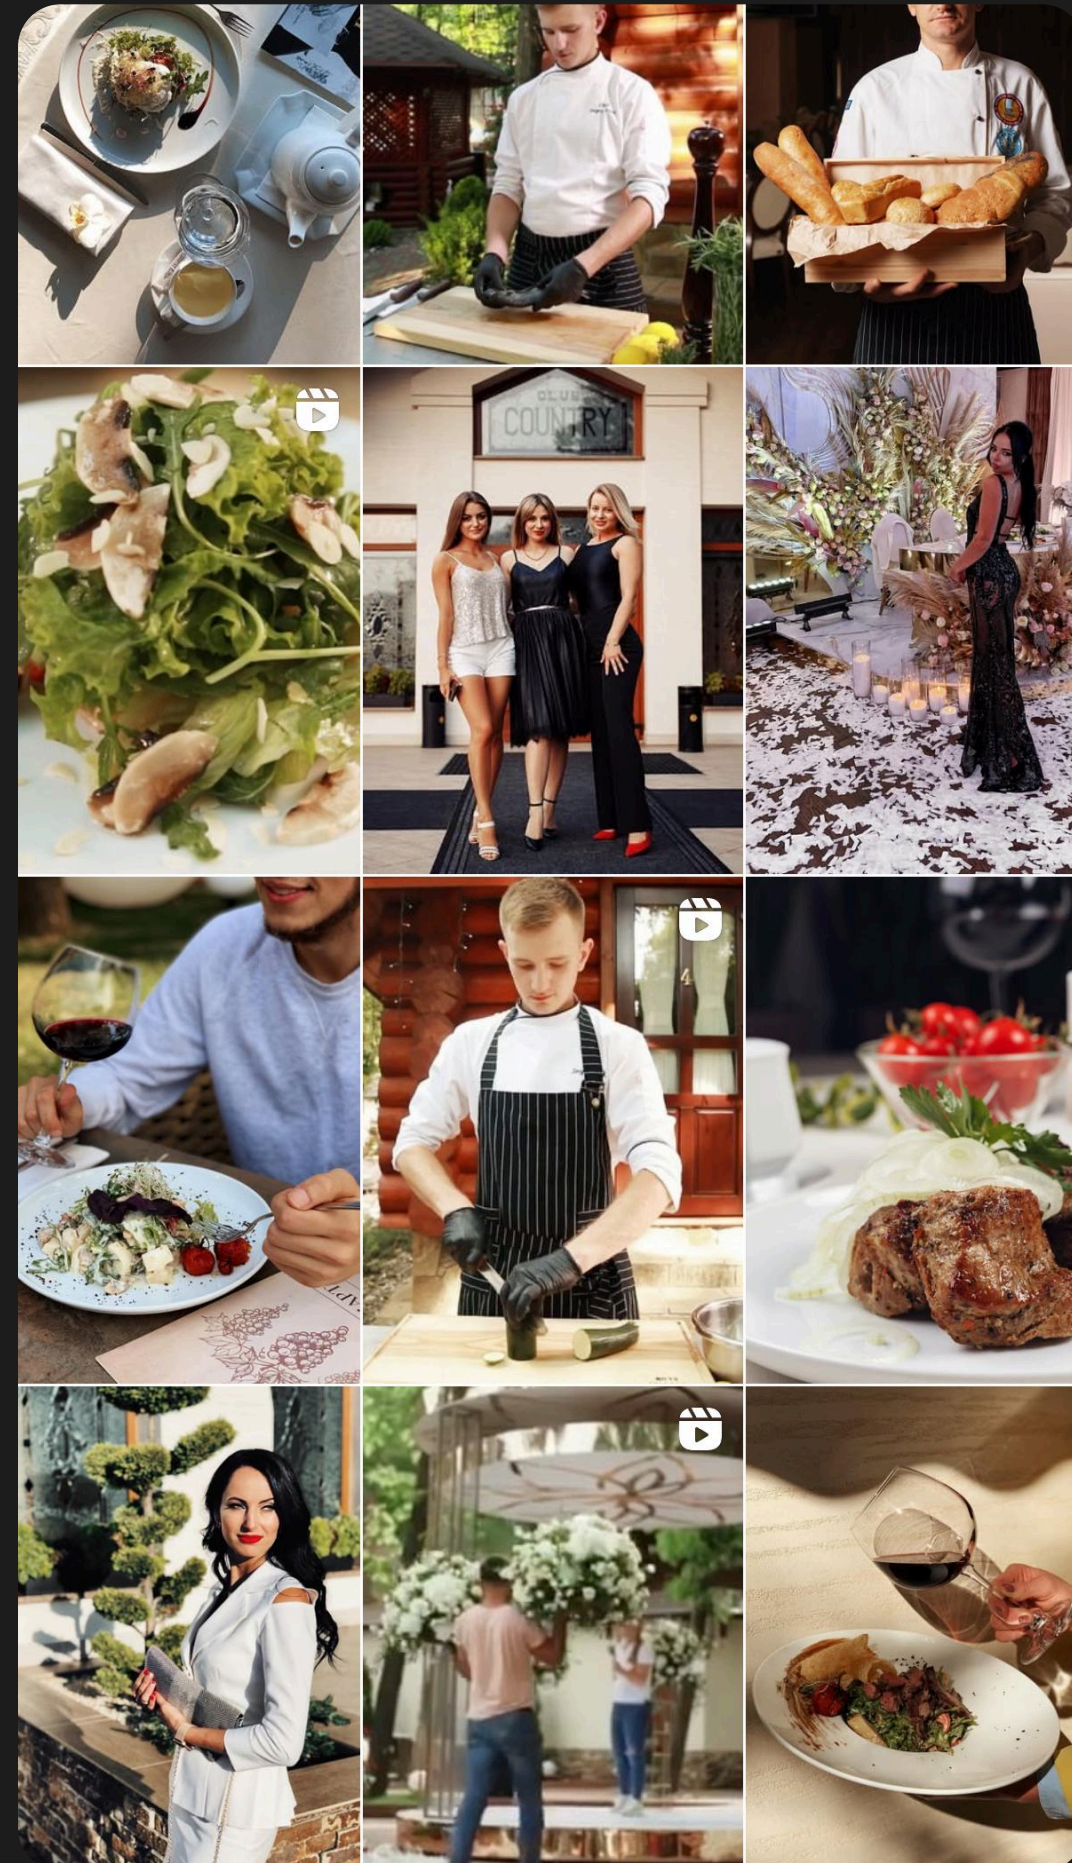

Our team includes specialists who took part in creating a visual identity for the restaurant, defining distinct categories that presented the restaurant and bar as separate yet harmonious experiences.

A key highlight of the project was its emphasis on mixology, featuring behind-the-scenes videos that showcased the artistry and skill behind the bar's signature cocktails.

[LINK](#)

Kamelot Hotel

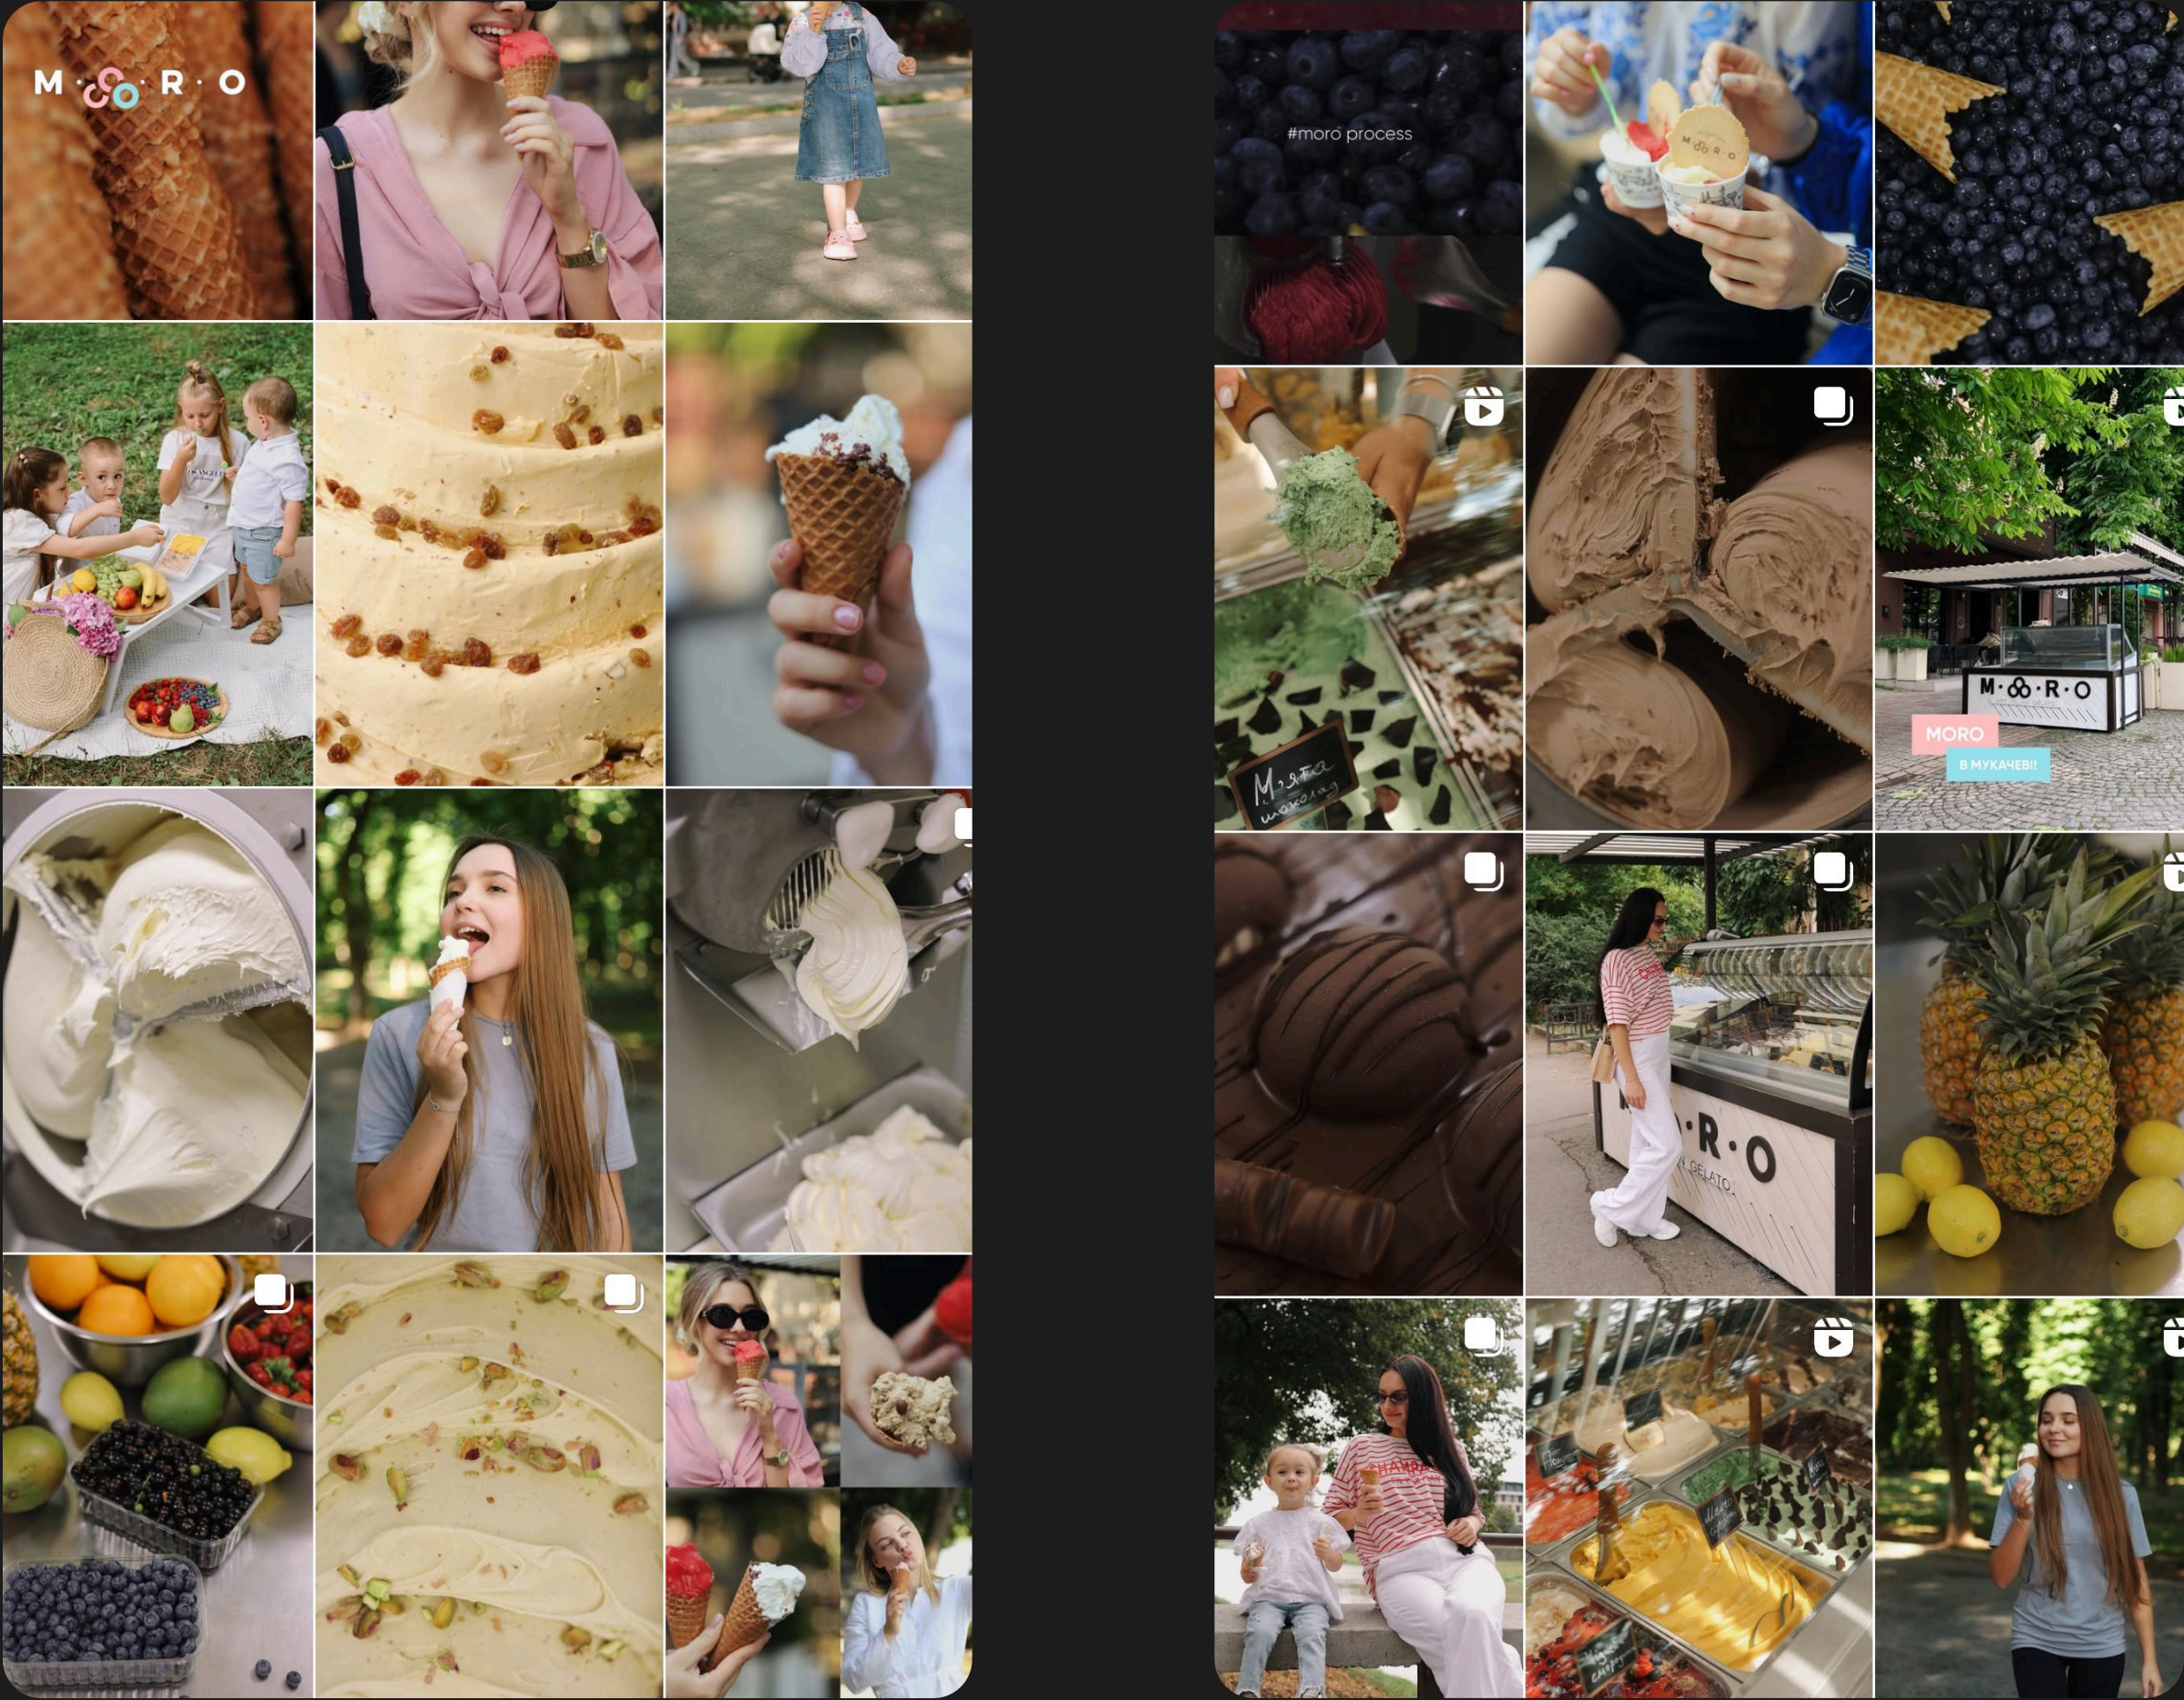

Our team includes specialists who took part in developing a unique and recognizable brand visual for the hotel-restaurant, along with distinct categories that represented the hotel and restaurant as individual, self-sufficient modules.

A standout feature of the project was the behind-the-scenes videos from the kitchen, highlighting the transparency and quality of the culinary process.

[LINK](#)

Moro Gelatto

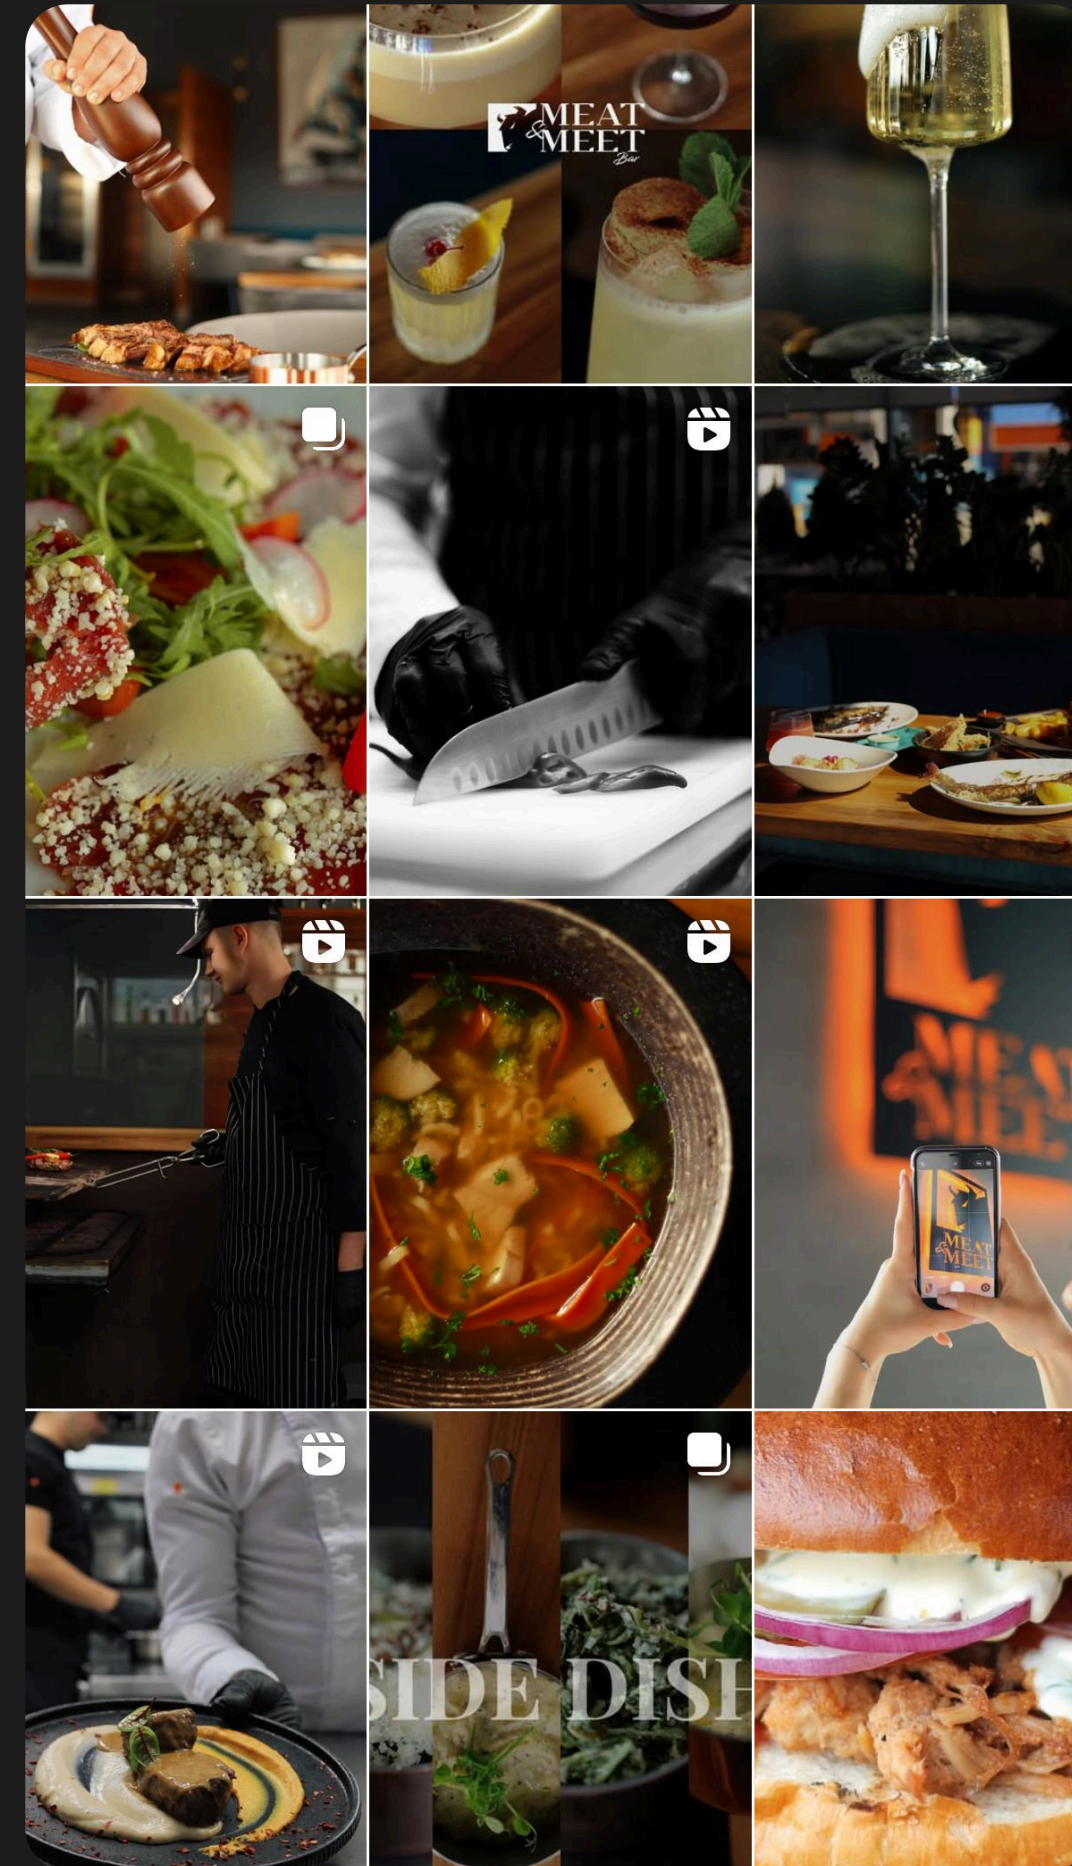

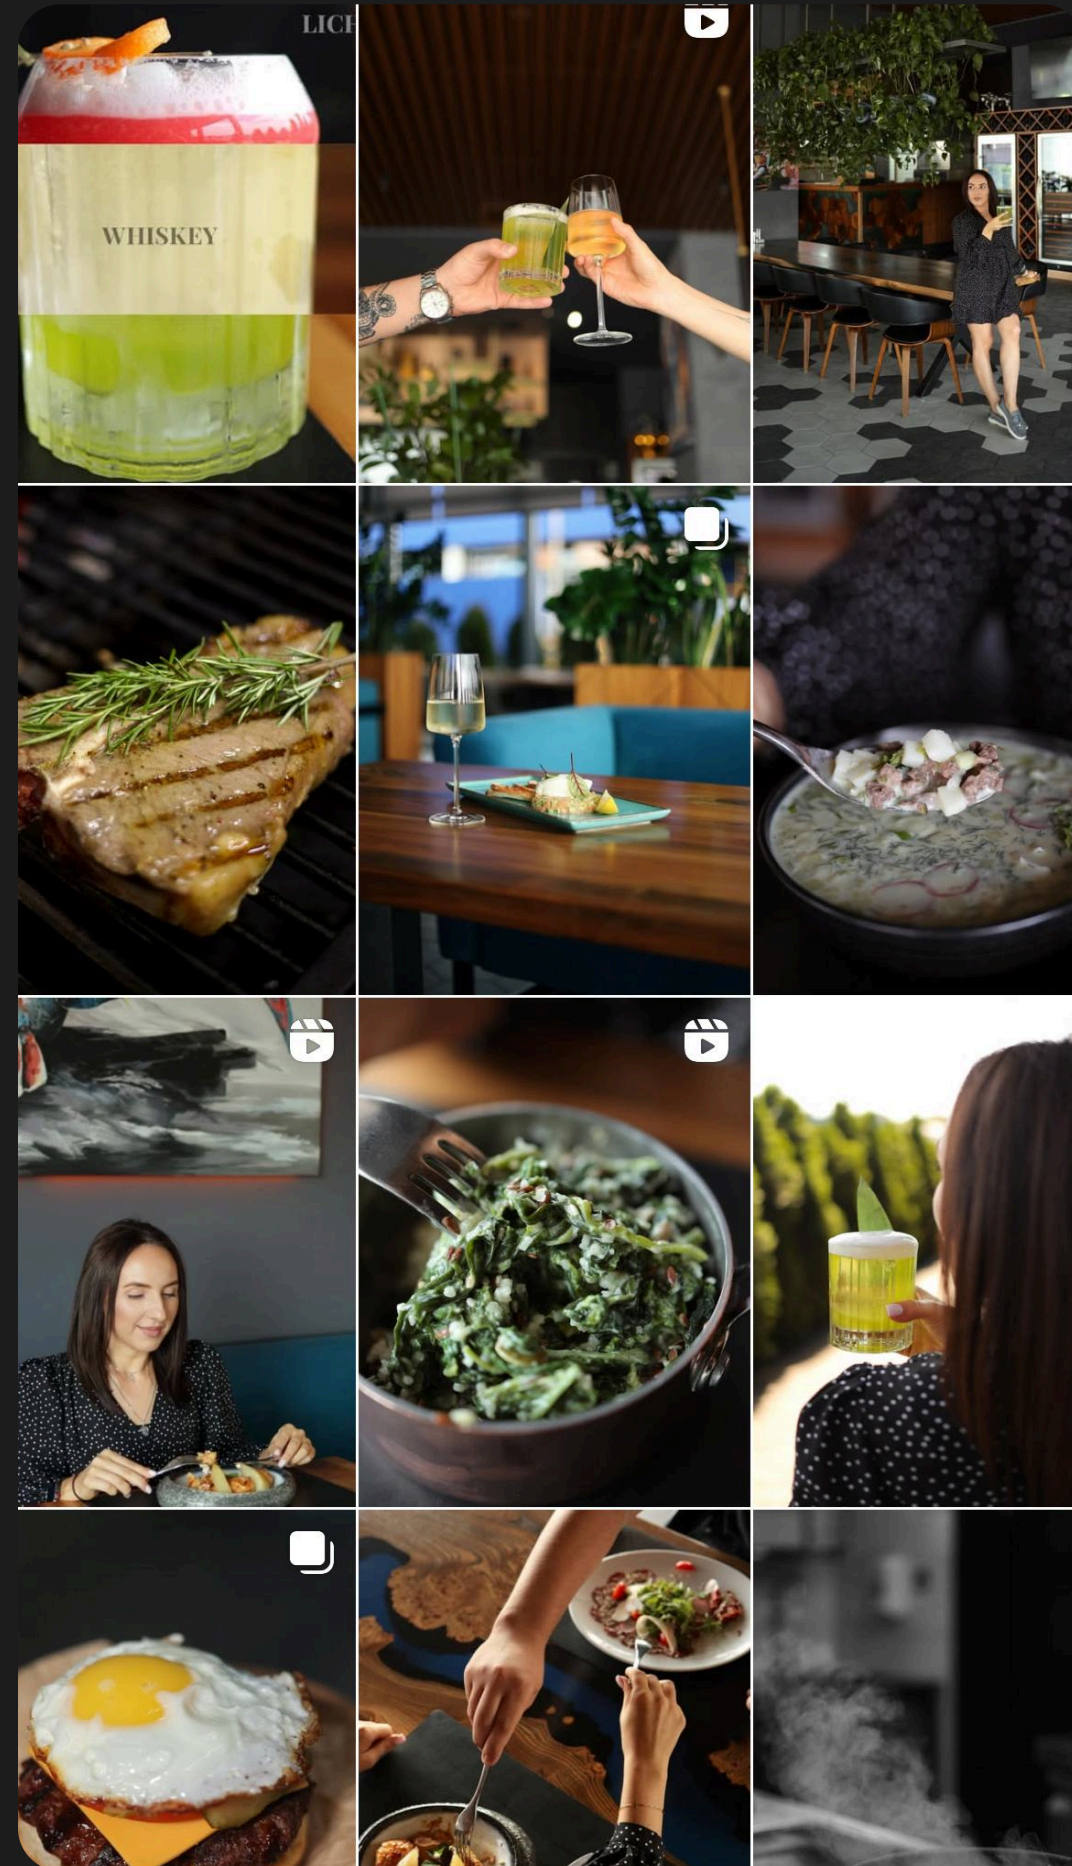

Our team includes specialists who took part in crafting a recognizable brand that allowed the audience to quickly connect with the brand, supporting its seasonal growth and rapid audience expansion.

A key highlight of the project was the entertaining and viral videos, including production footage that engaged the audience in a fun and memorable way.

[**LINK**](#)

Meat & Meet Bar

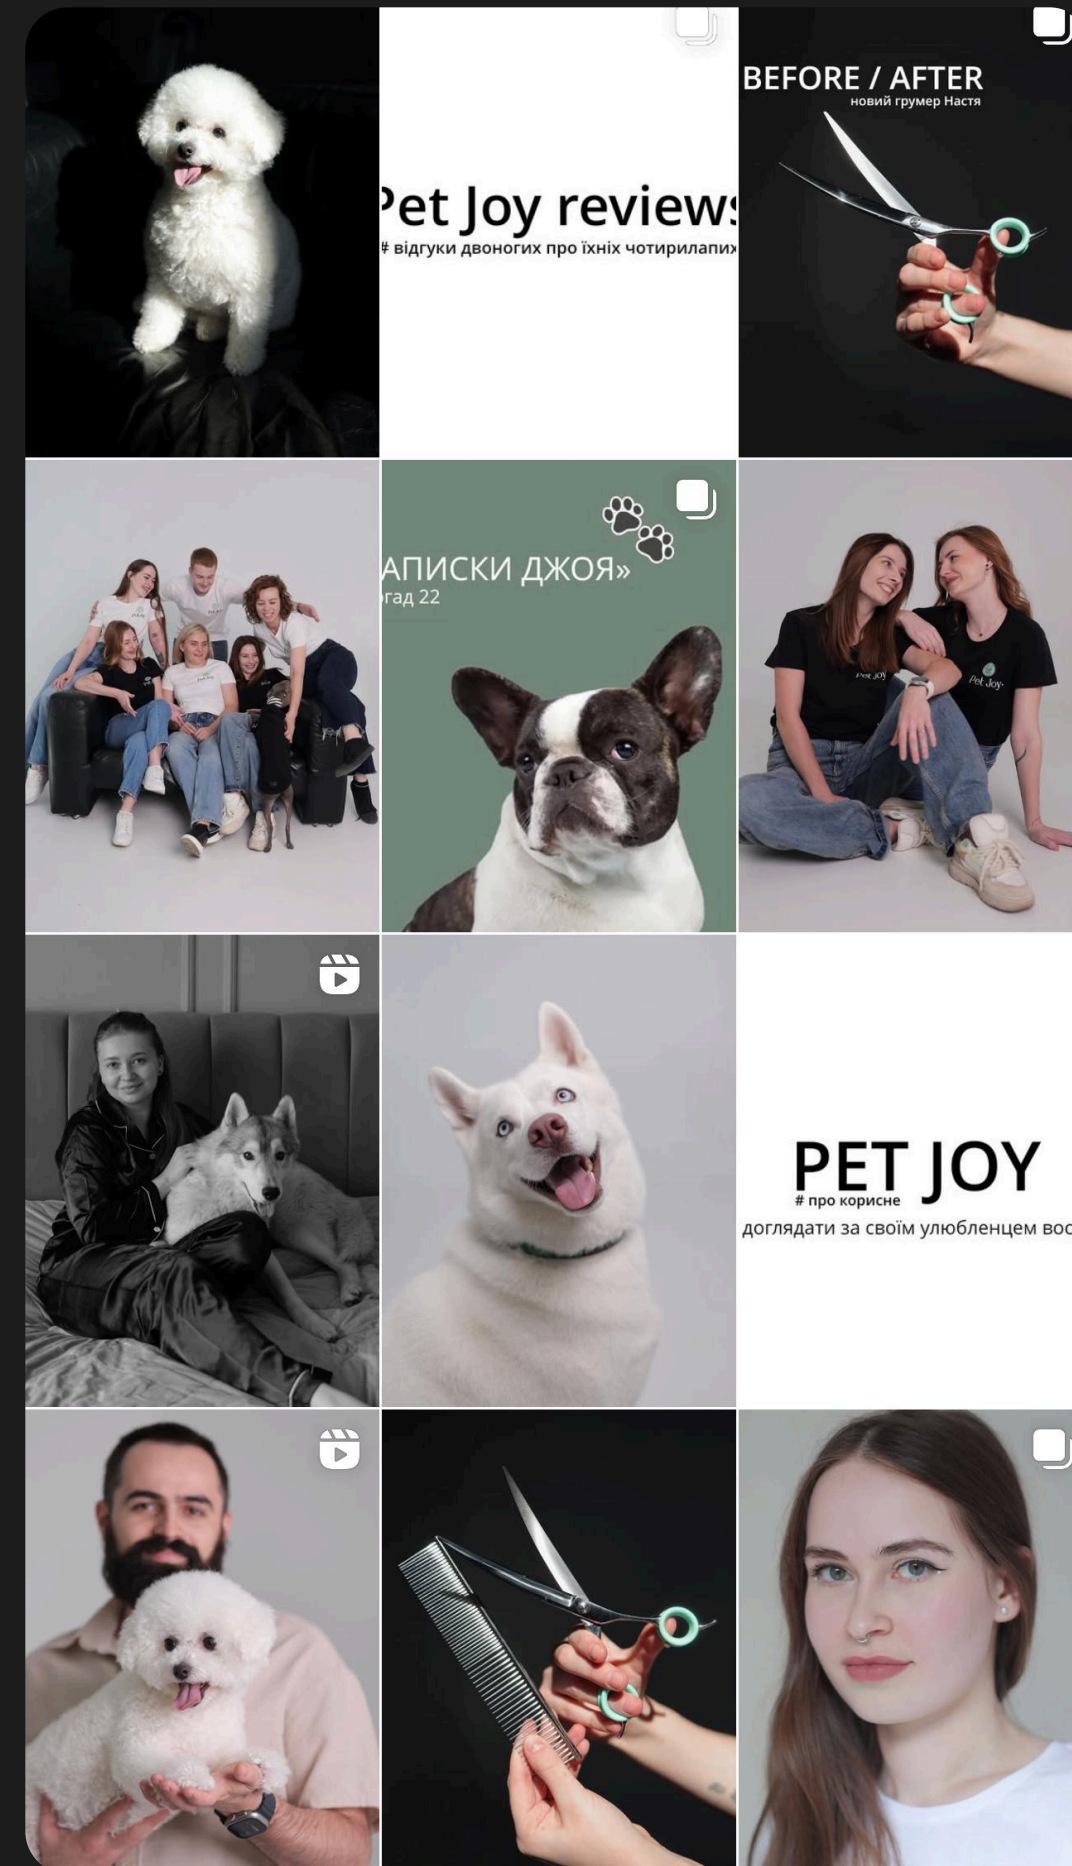

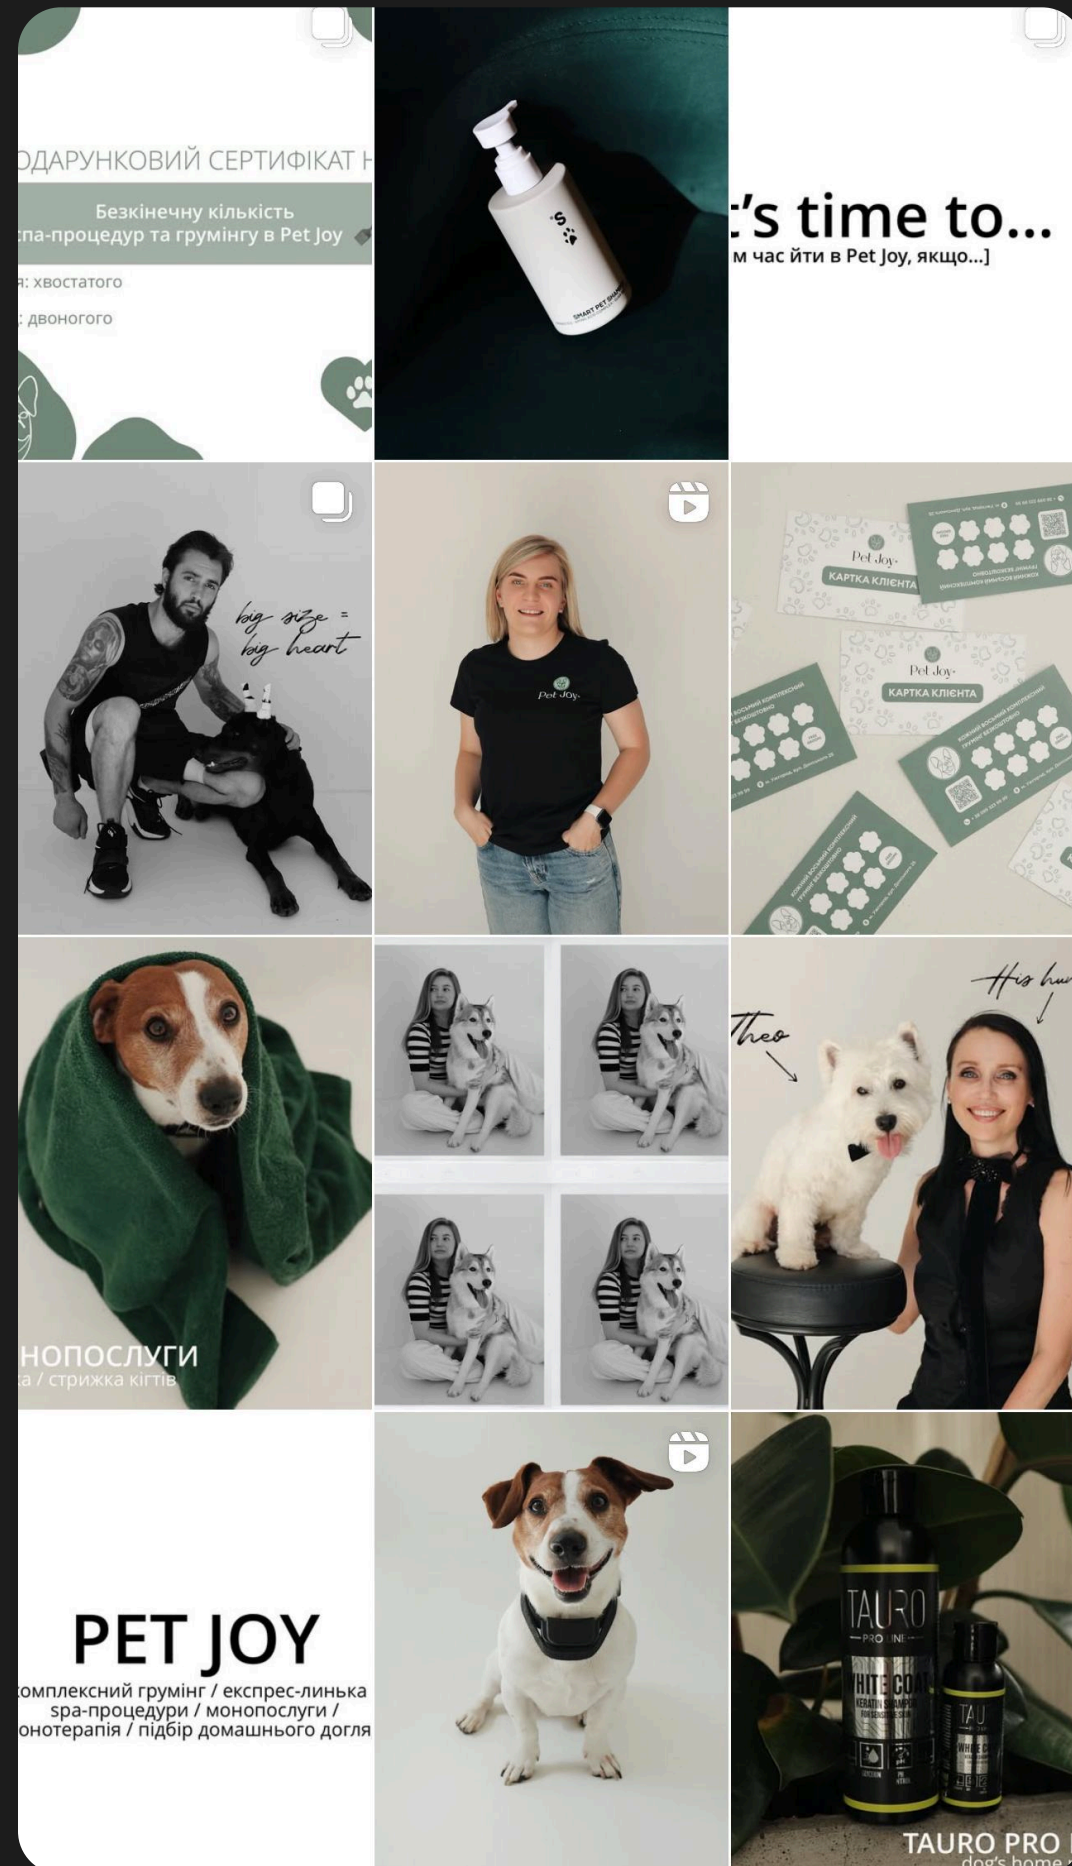

Our team includes specialists who took part in developing visual for the restaurant, alongside distinct categories that showcased the restaurant and its bar as separate yet complementary experiences.

A standout feature of the project was the focus on mixology, with behind-the-scenes videos highlighting the artistry and craftsmanship behind the bar's signature cocktails.

[LINK](#)

Pet Joy

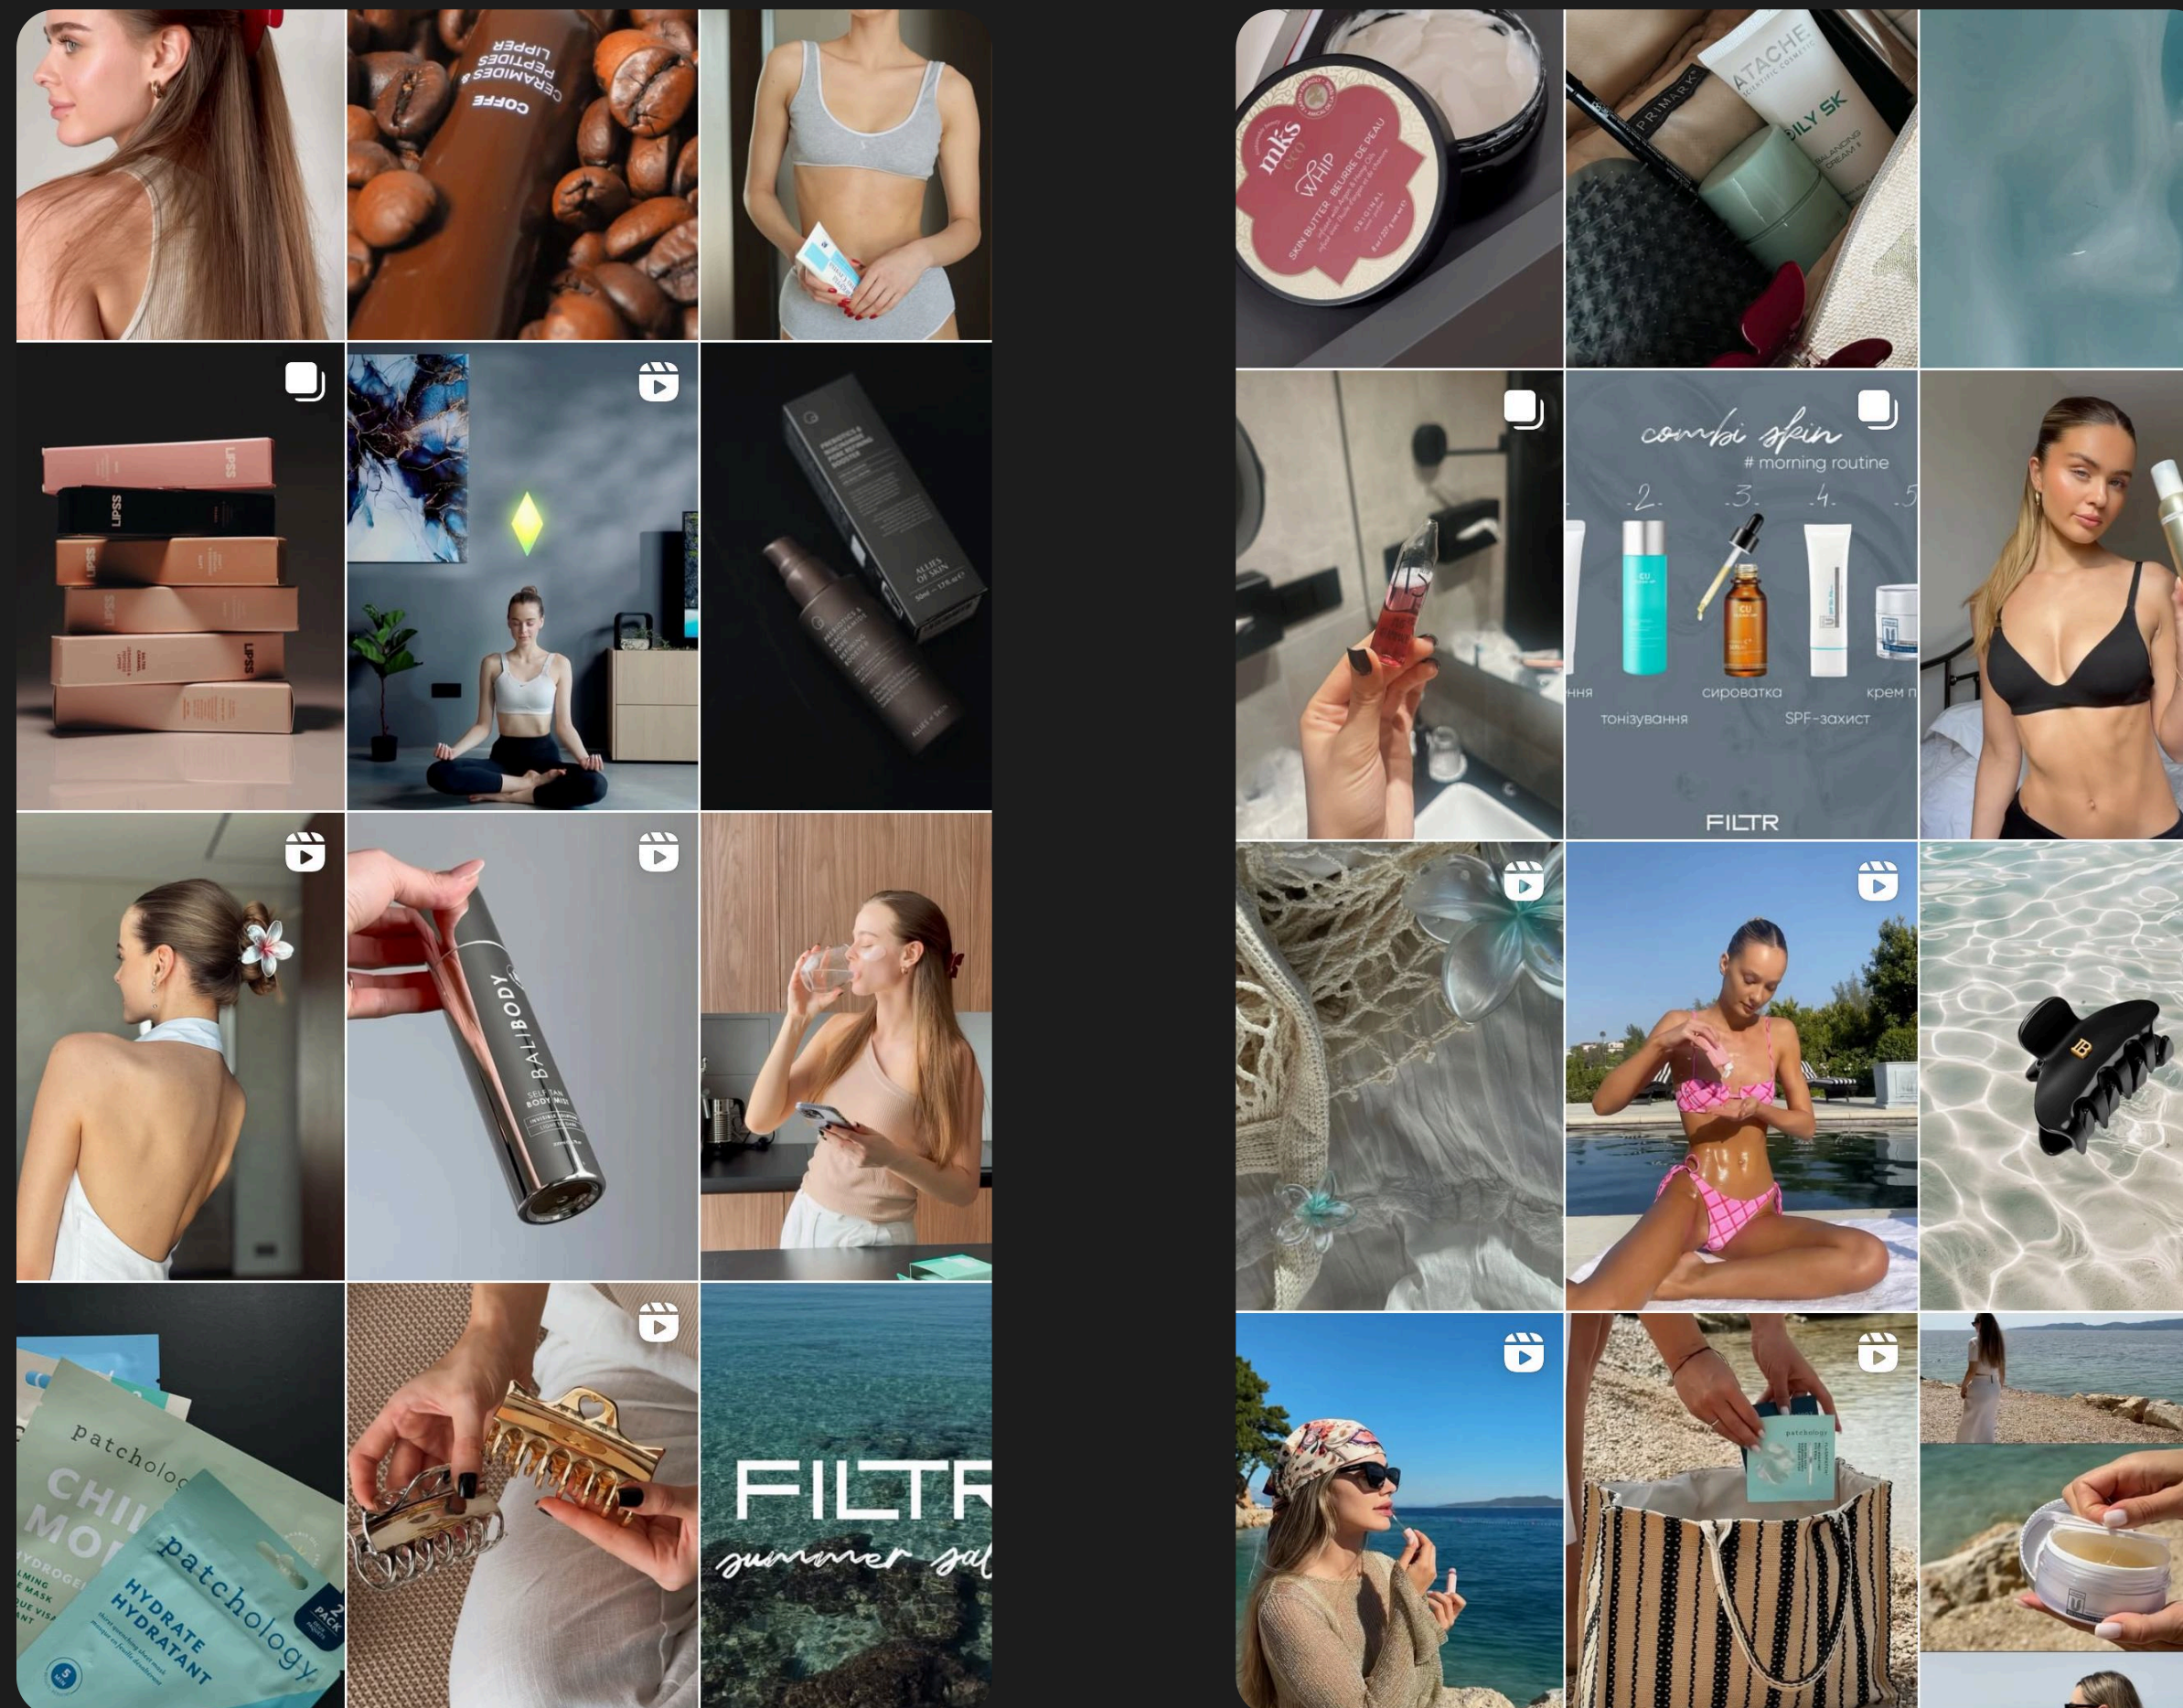

The feature of the project is the unique style of the feed. It's a mix of content from the studio, the salon, and other locations.

A standout feature of the content is the "Notes of Joy" section. Our team includes specialists who created a main character (inspired by the logo) named Joy, who shares stories about the salon's clients.

[LINK](#)

FILTR Shop

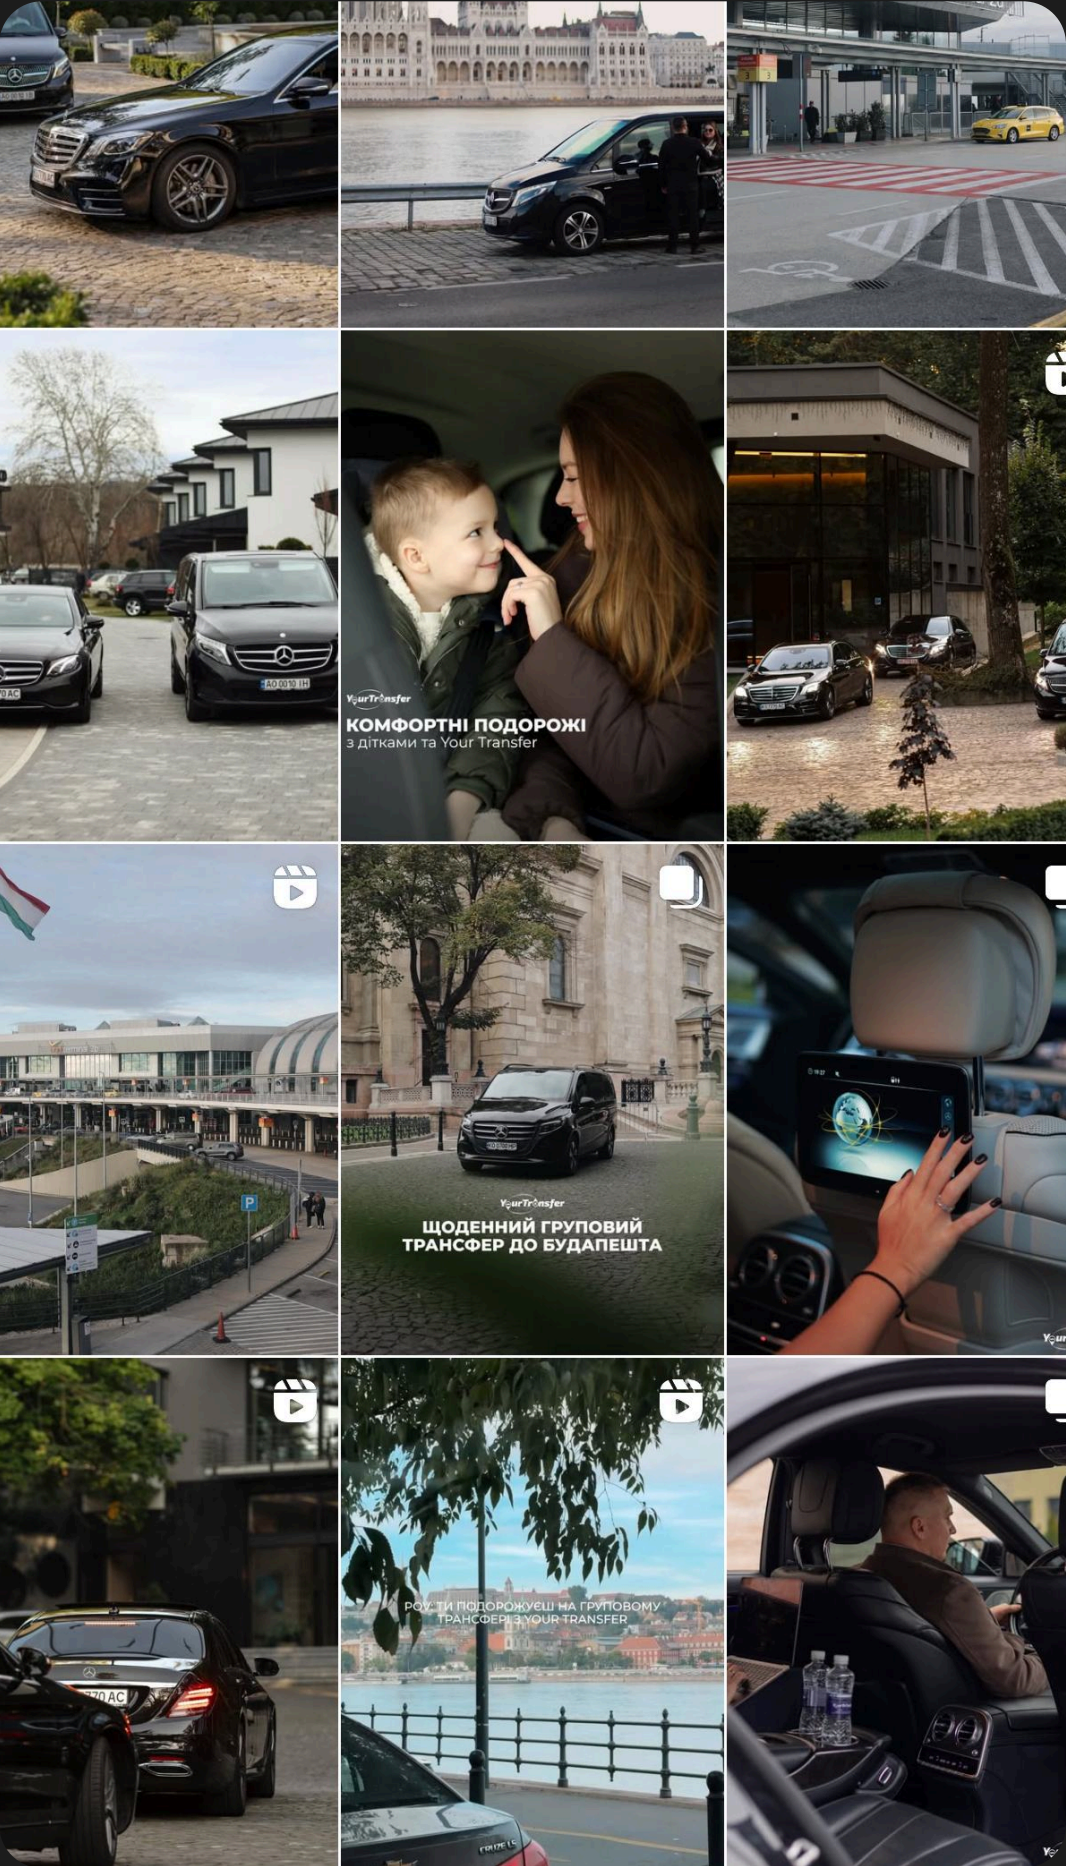

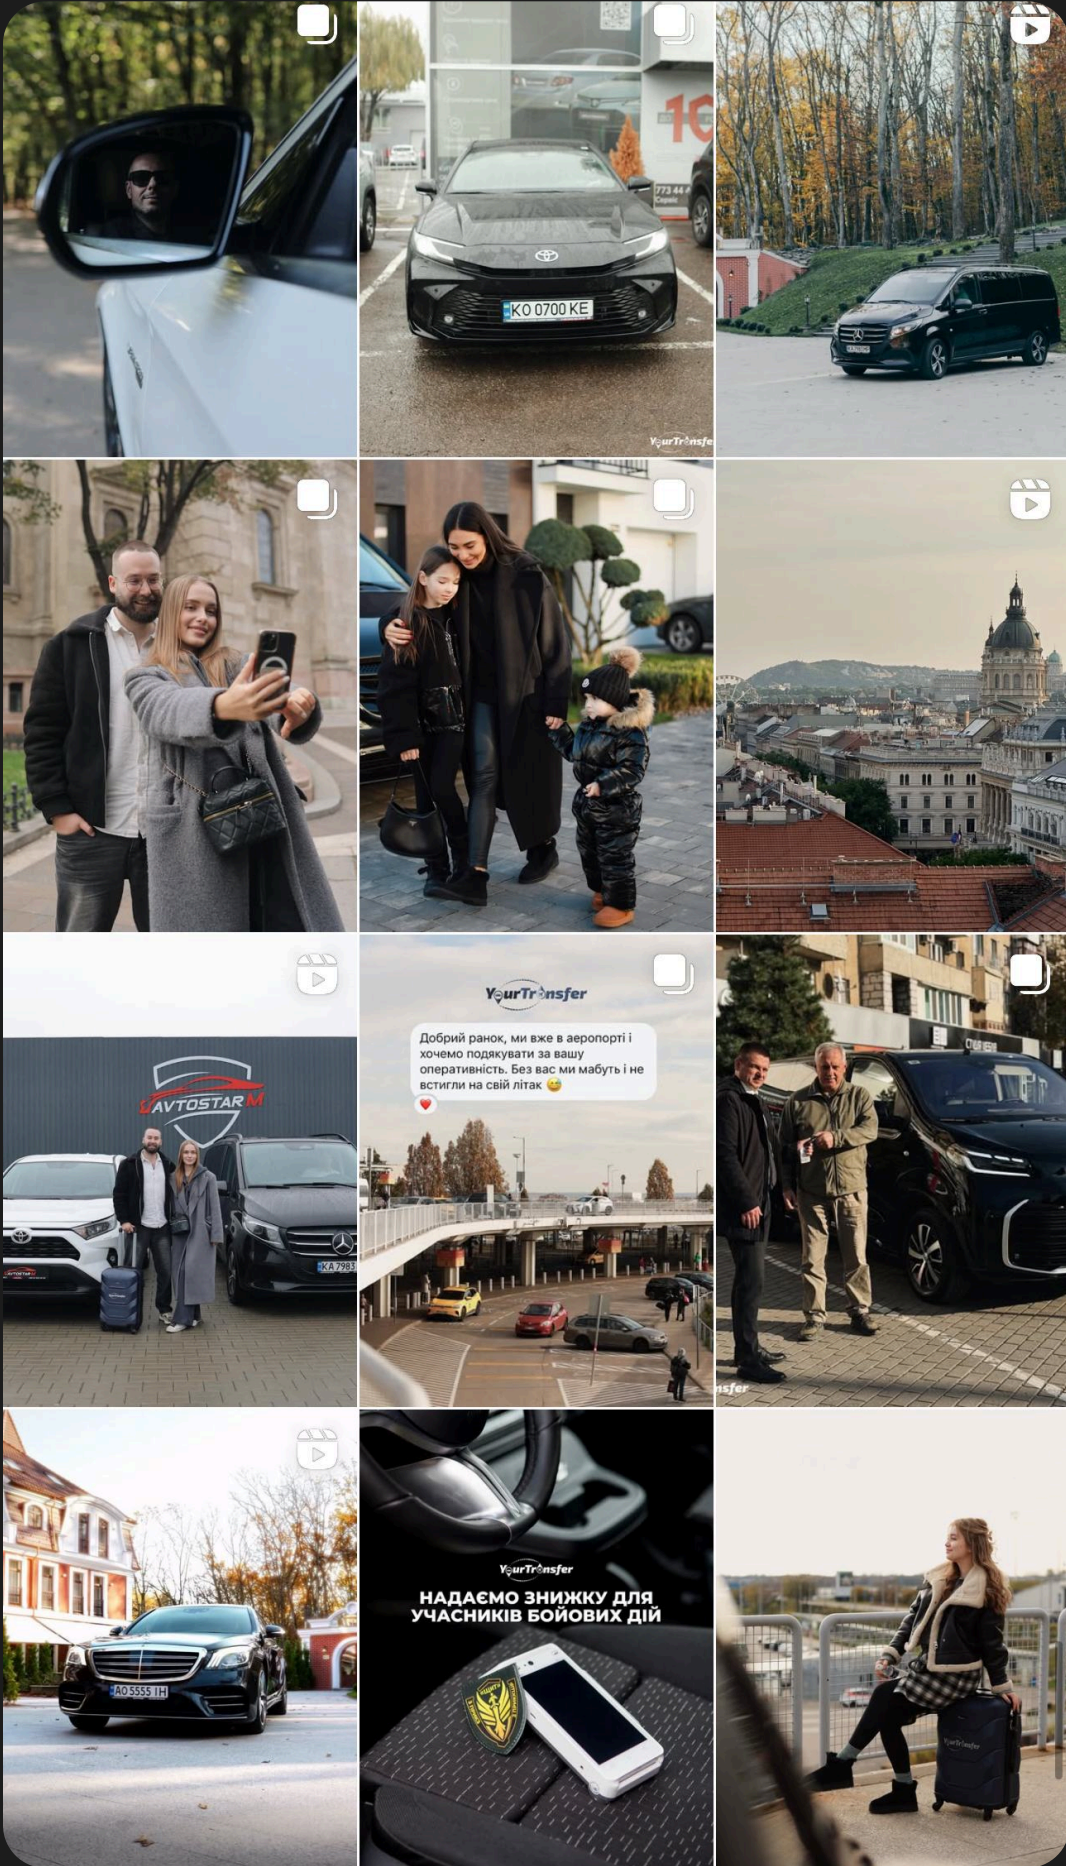

Our team includes specialists who took part in developing a brand visual for the cosmetics shop, along with tailored product-based categories.

A key feature of the project was the extensive collaboration with models and bloggers, featured in content focused on products and events.

LINK

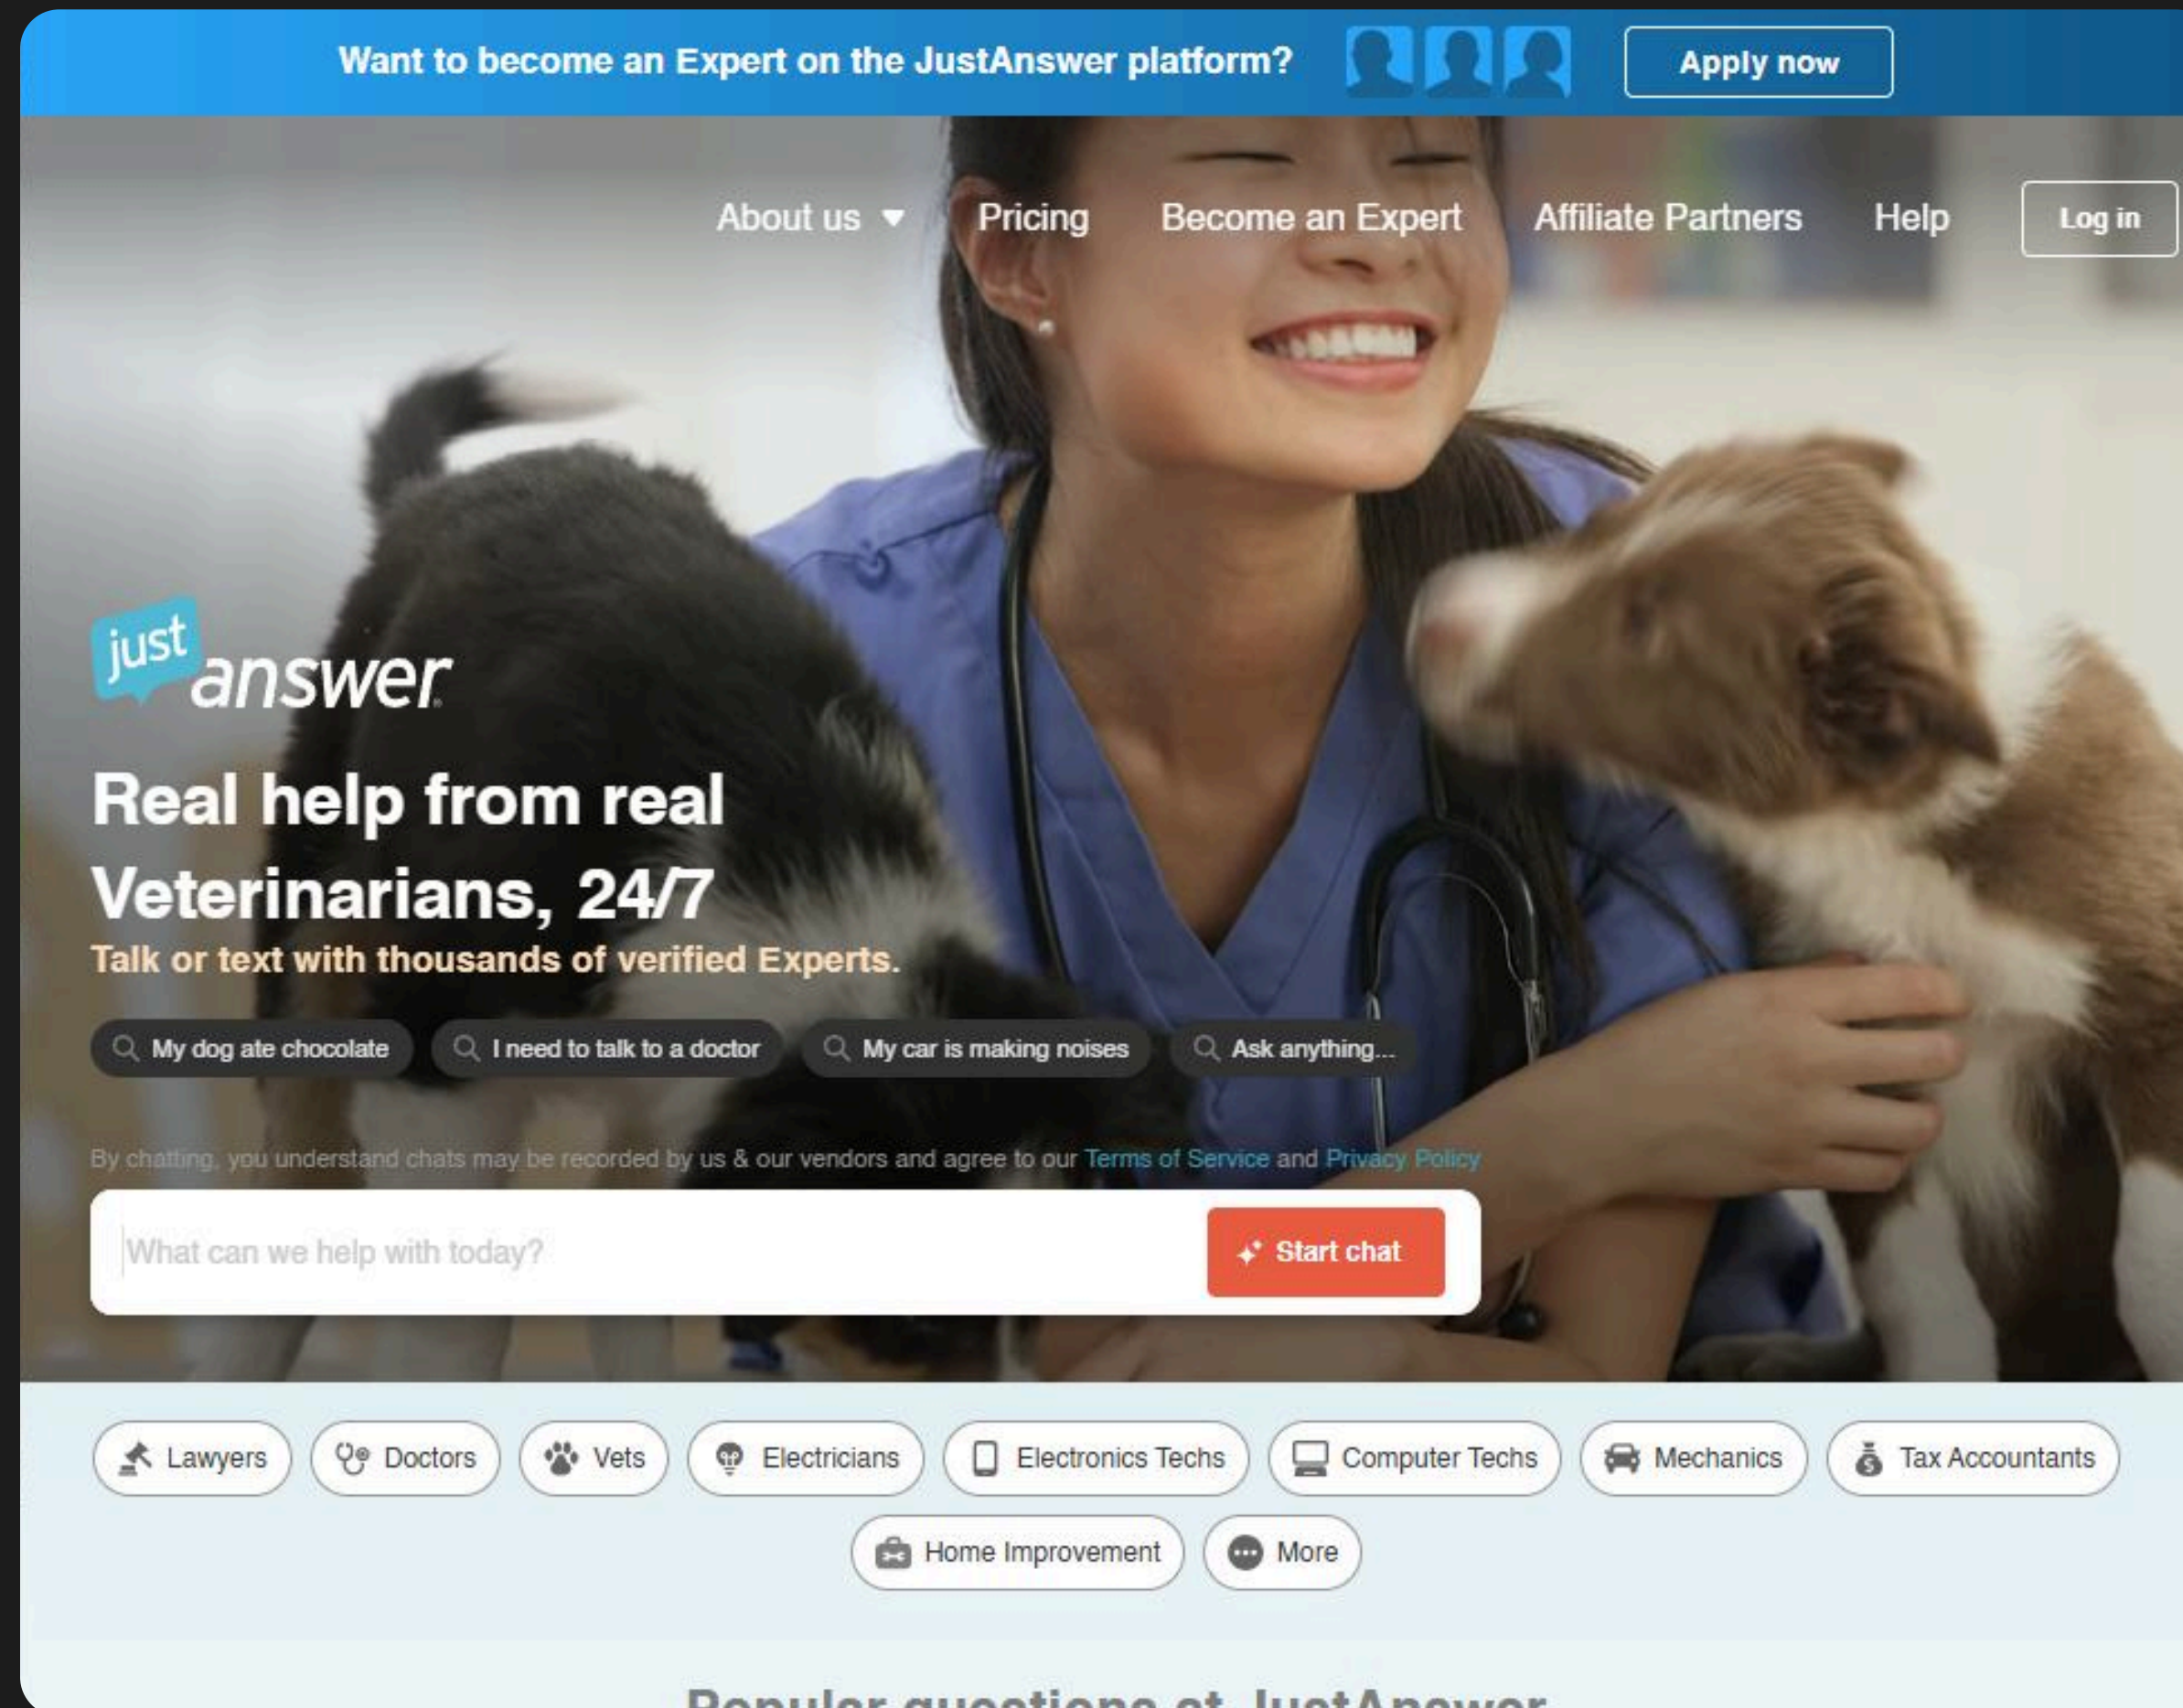

YourTransfer

Our team includes specialists who took part in developing a distinctive brand for the transfer company, alongside content categories that emphasized the company's services and team.

A key feature of the project was the use of multiple photoshoot locations, which highlighted the dynamic nature of the company.

LINK

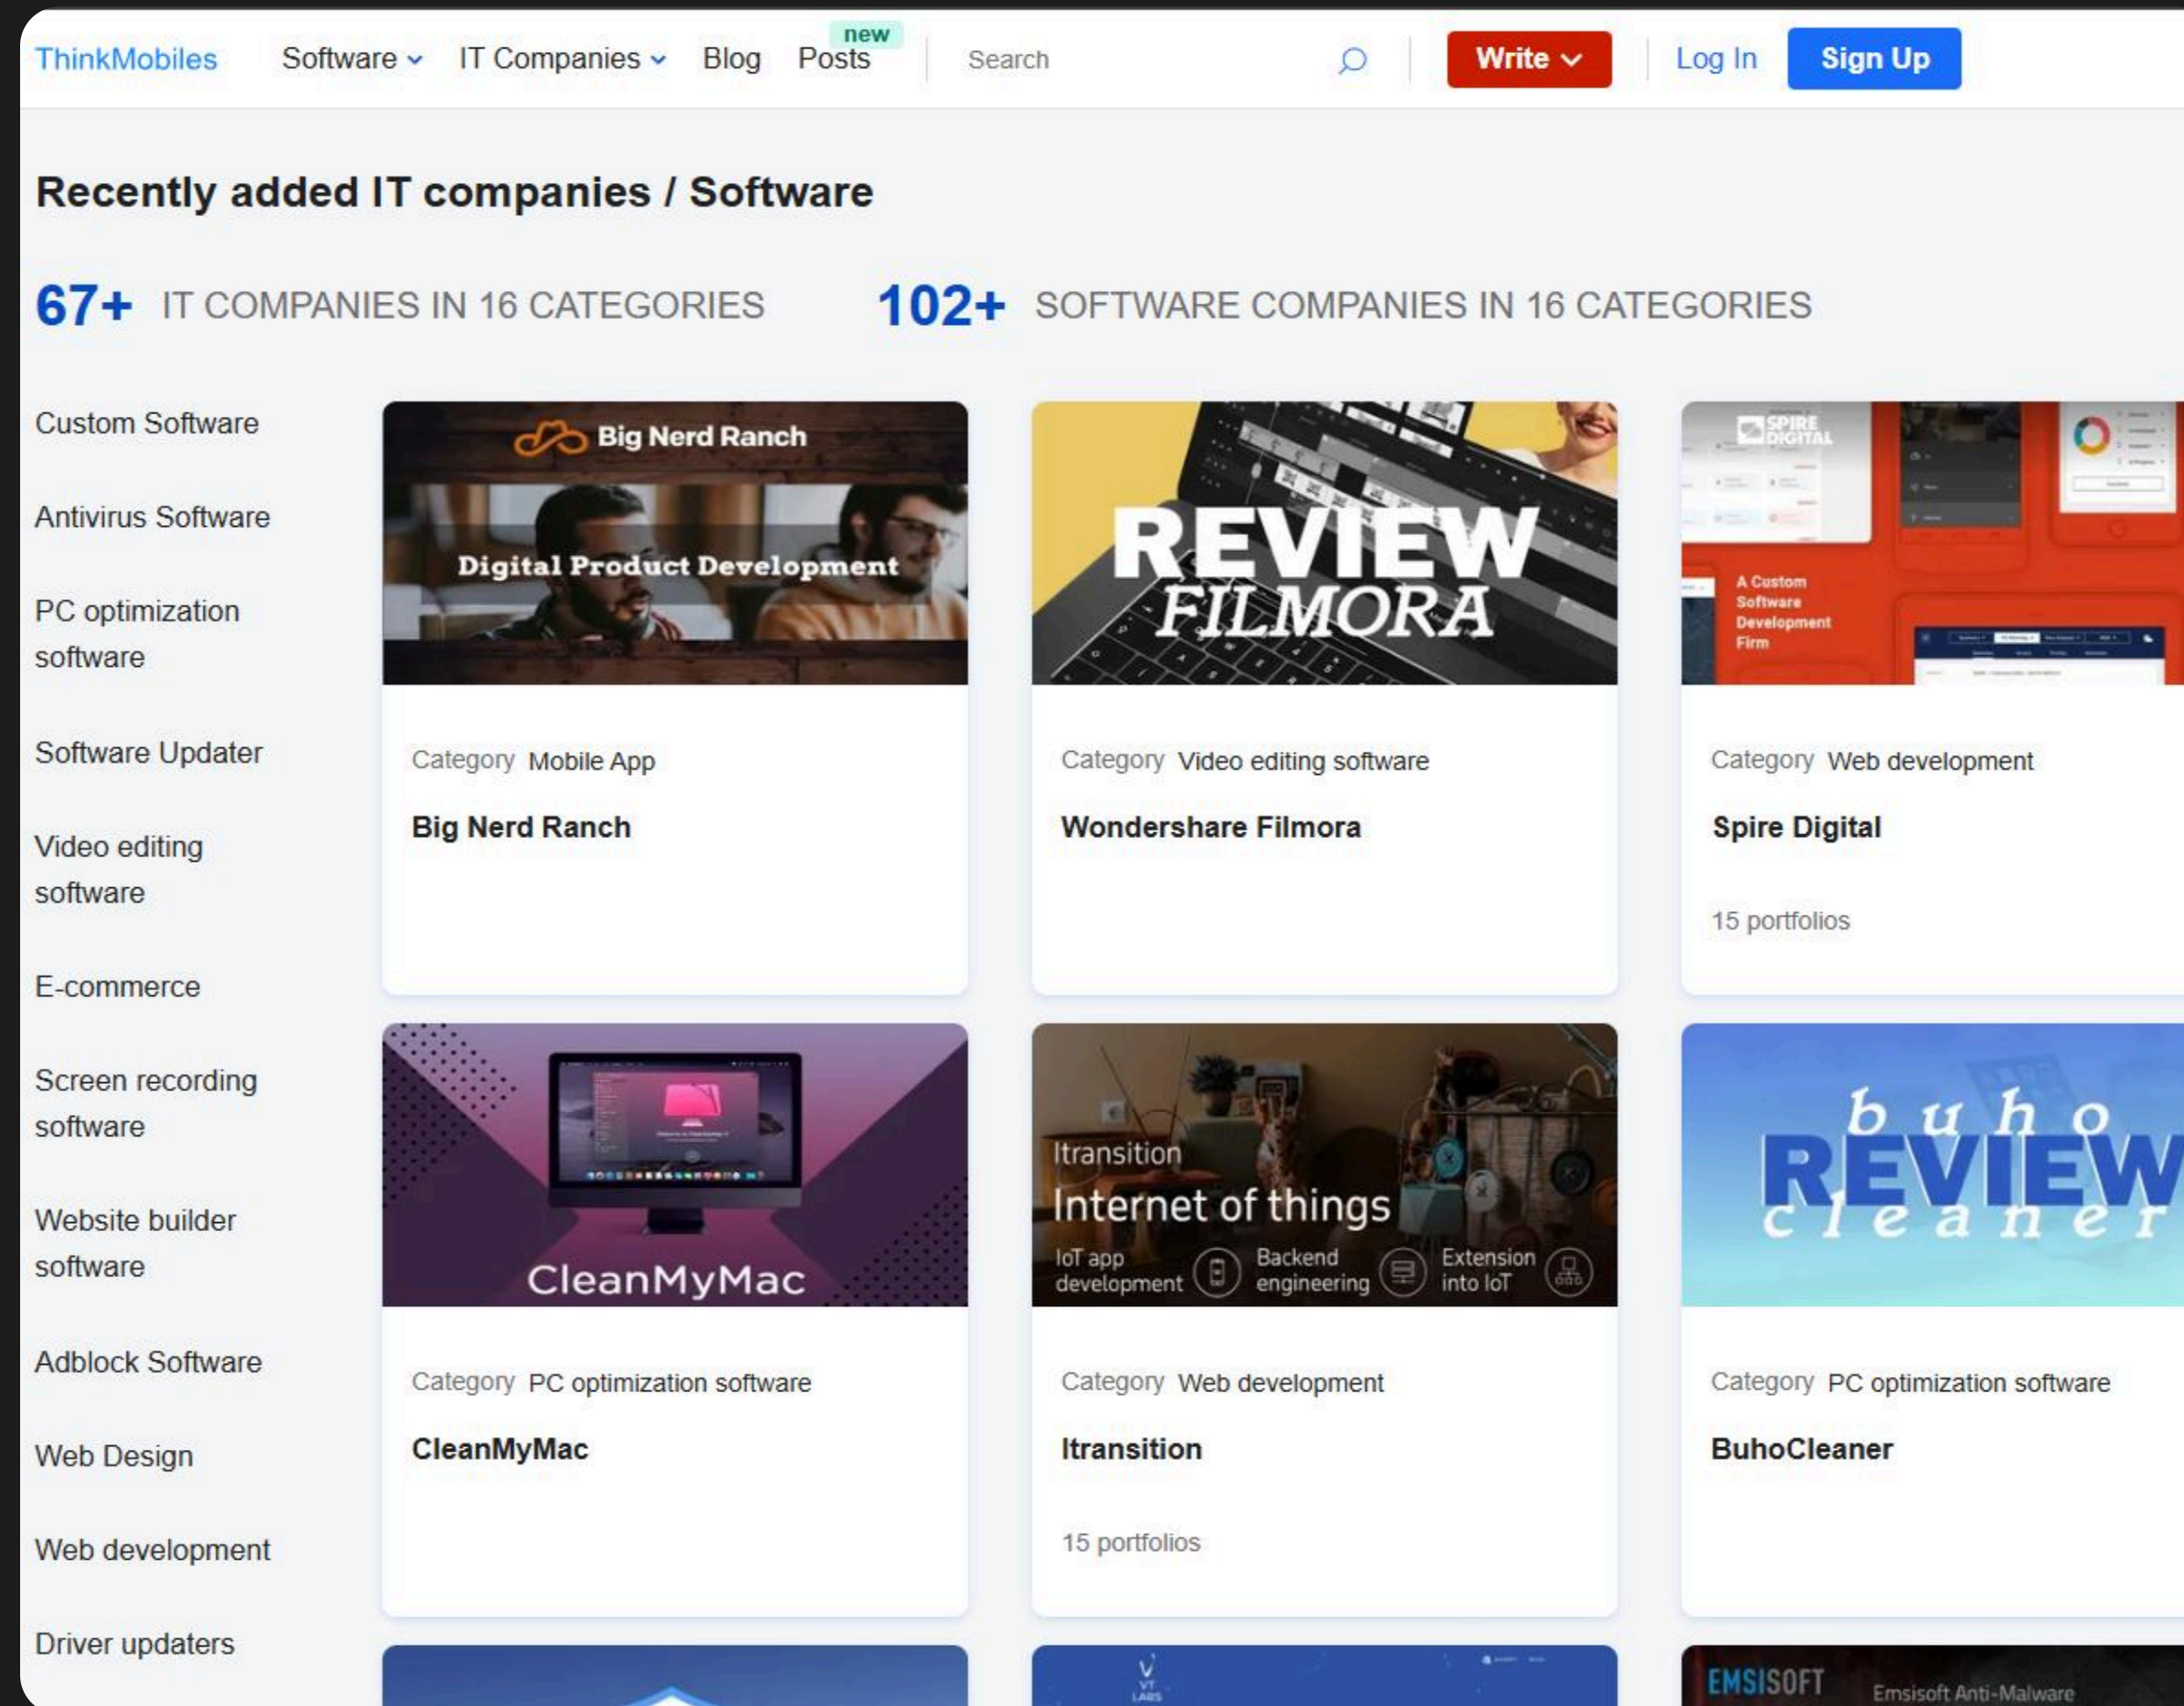

Among the web developers on our team, we have specialists with qualifications as team-leading web developers on platforms such as JustAnswer.

The goal of this site is to connect users with verified experts across various fields, providing quick and reliable answers to their questions in real time.

LINK

ThinkMobiles

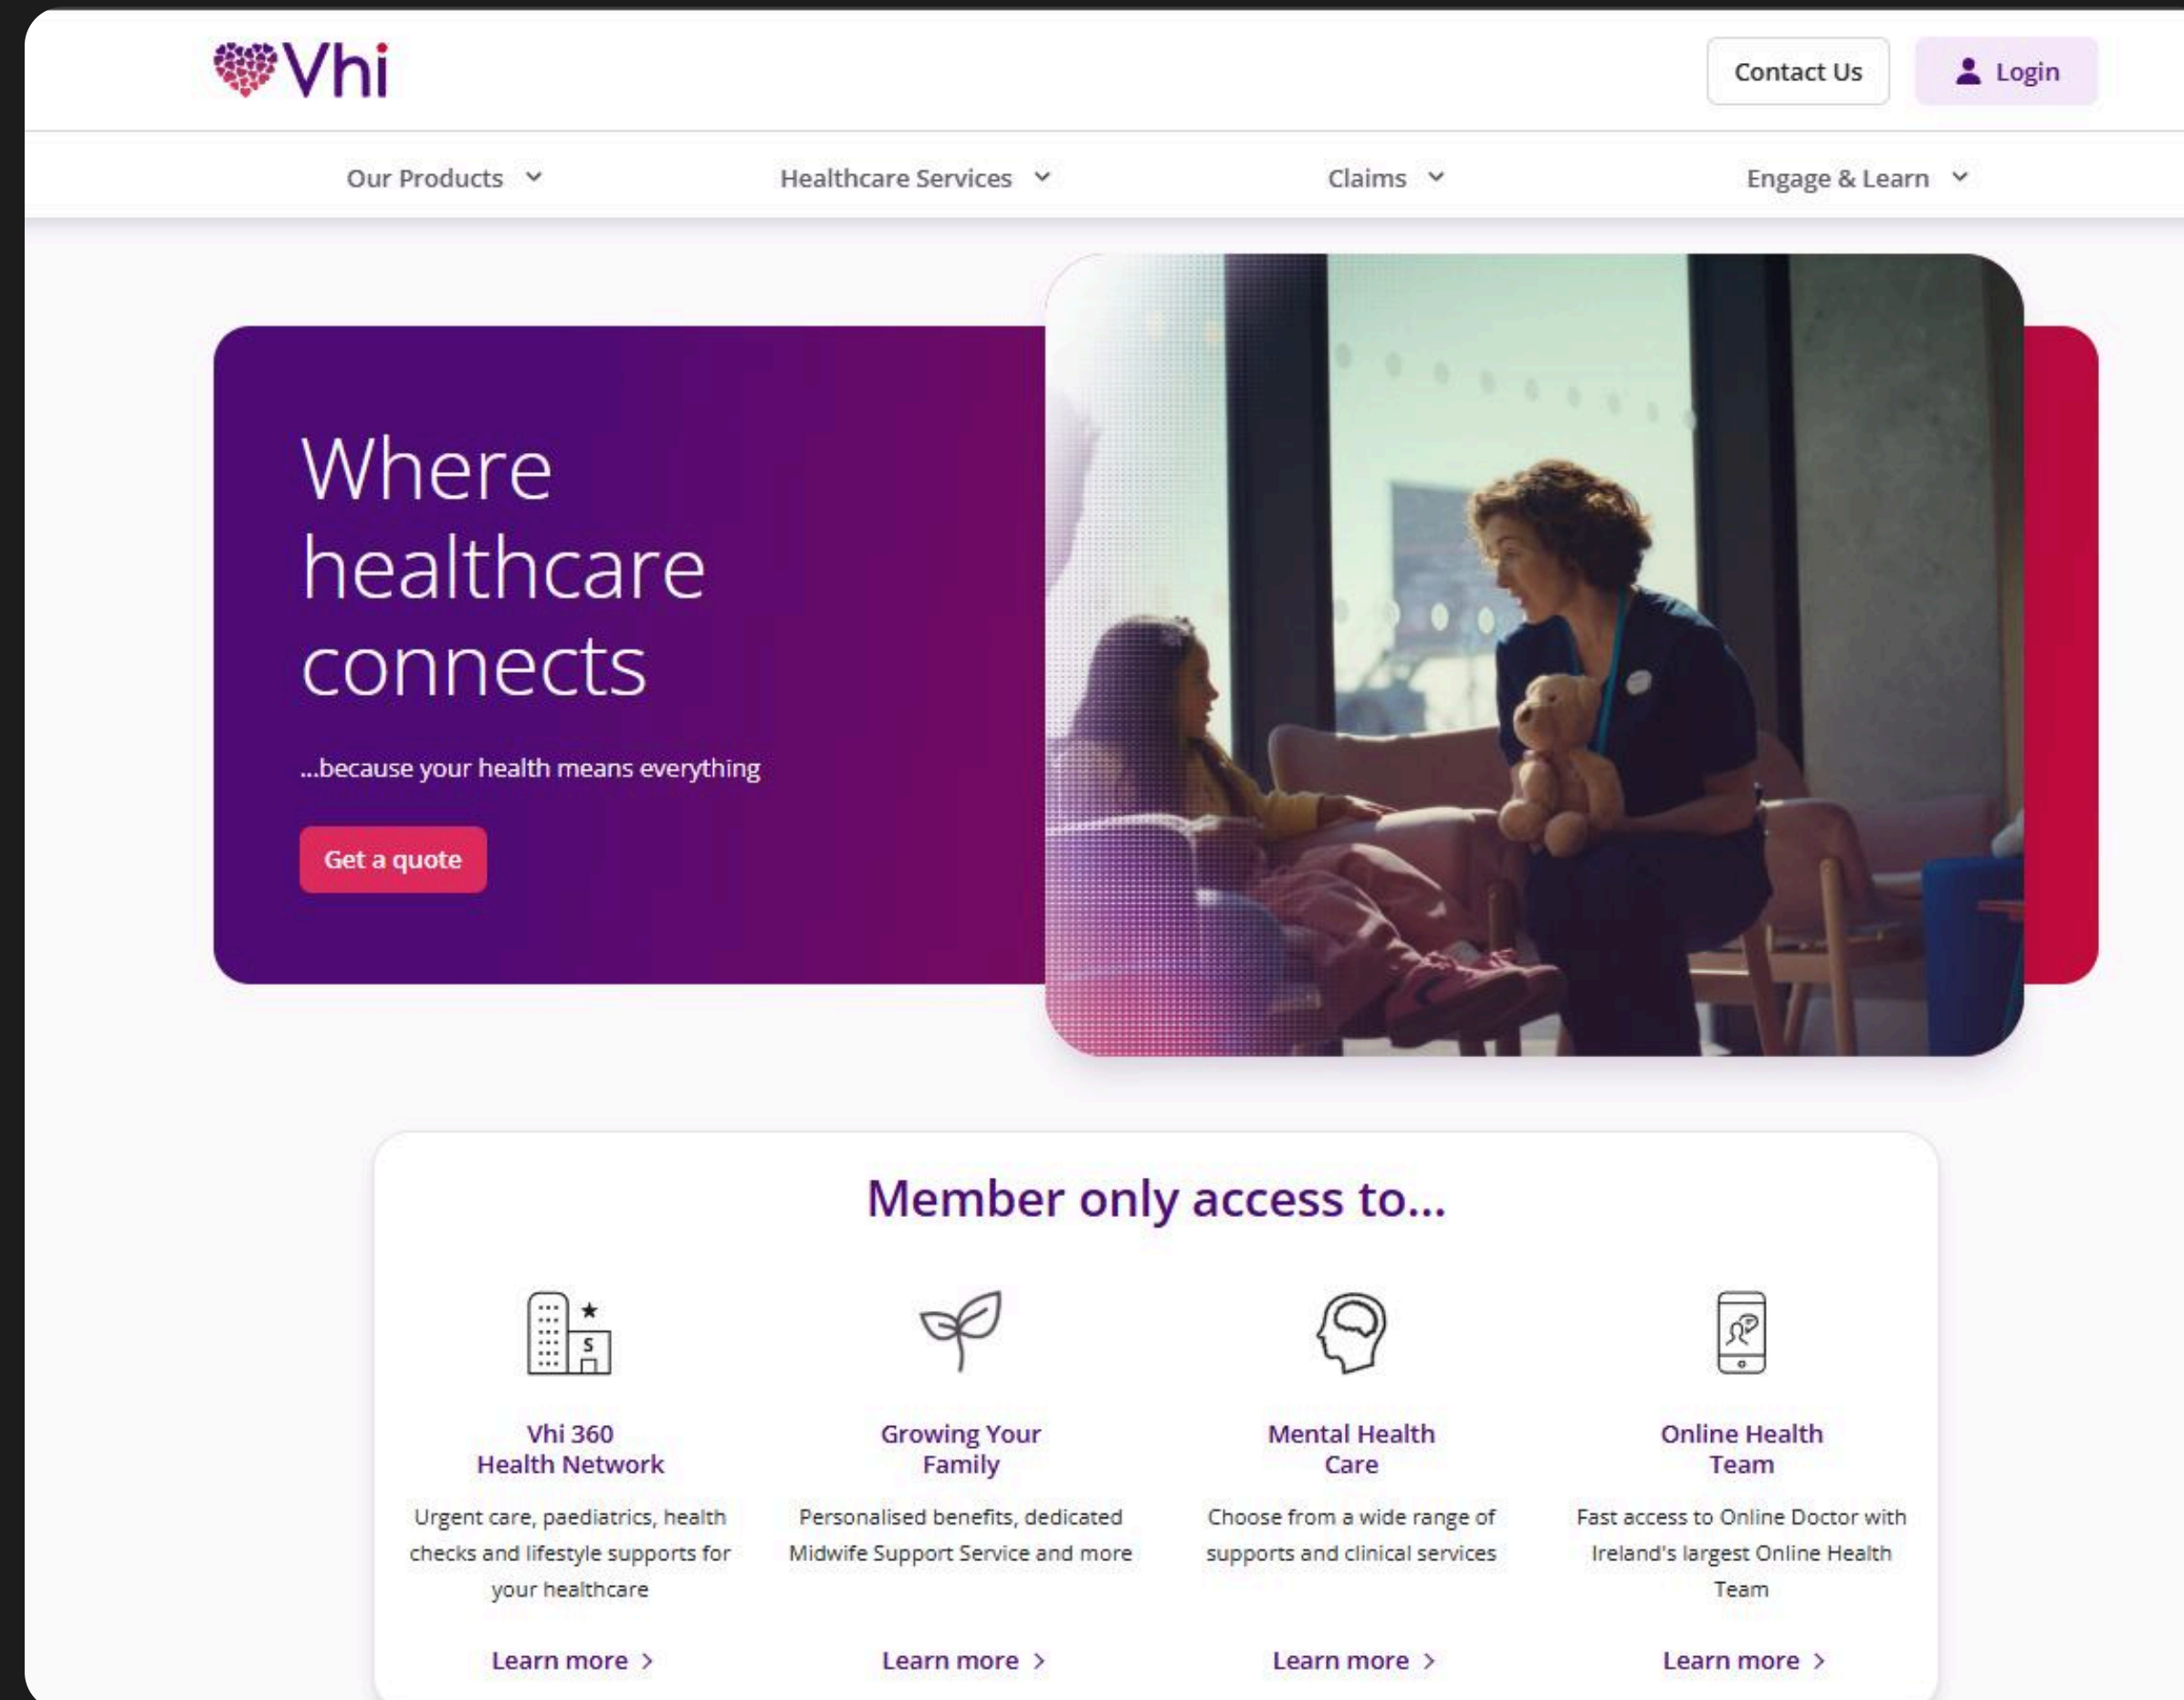

Our team includes professionals who were part of the dedicated development team for the web service ThinkMobiles

This platform is designed to deliver in-depth software and company reviews, enabling users to make informed decisions and facilitating seamless online comparisons.

LINK

Vhi

Our team includes specialists who have served as team-leading developers for the web service Vhi.ie.

This platform is designed to provide comprehensive insurance services and facilitate their seamless online commerce.

LINK

Marketing and Promotional Materials

Our team have specialists with experience in Marketing and Promotional Materials, creating visually striking and effective materials for various print mediums.

From brochures and flyers to promotional materials, we ensure every design is tailored for high-quality printing and impactful presentation.

Brand Identity Development

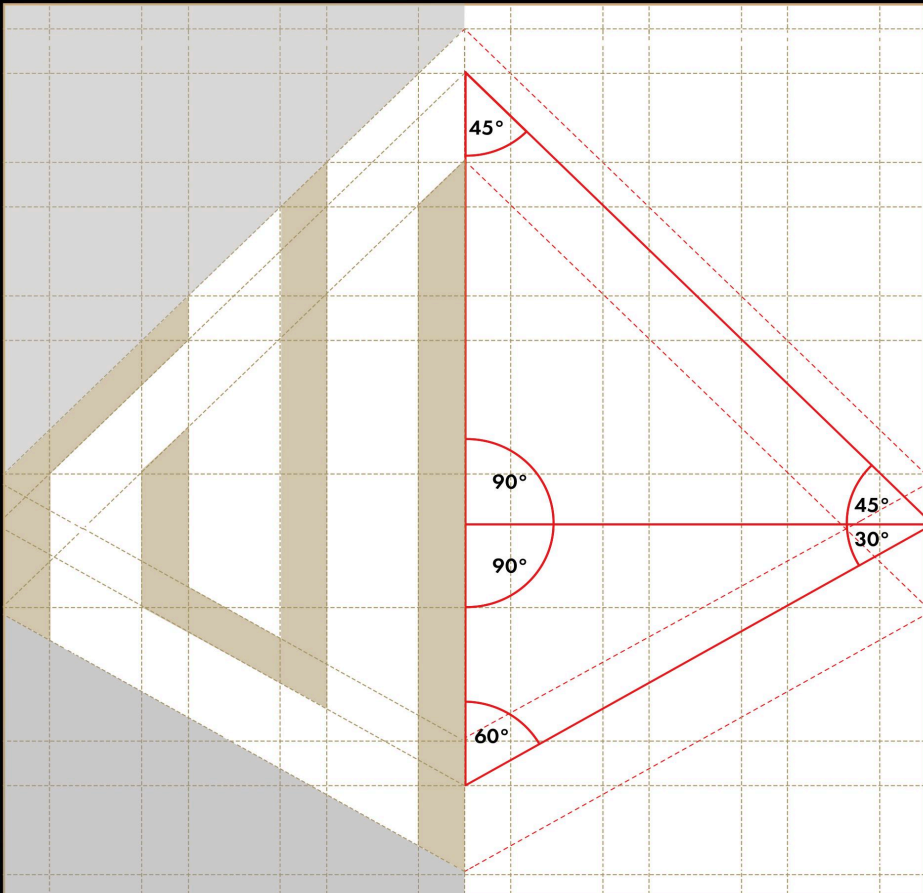

1.1 Logo

ICON STRUCTURE

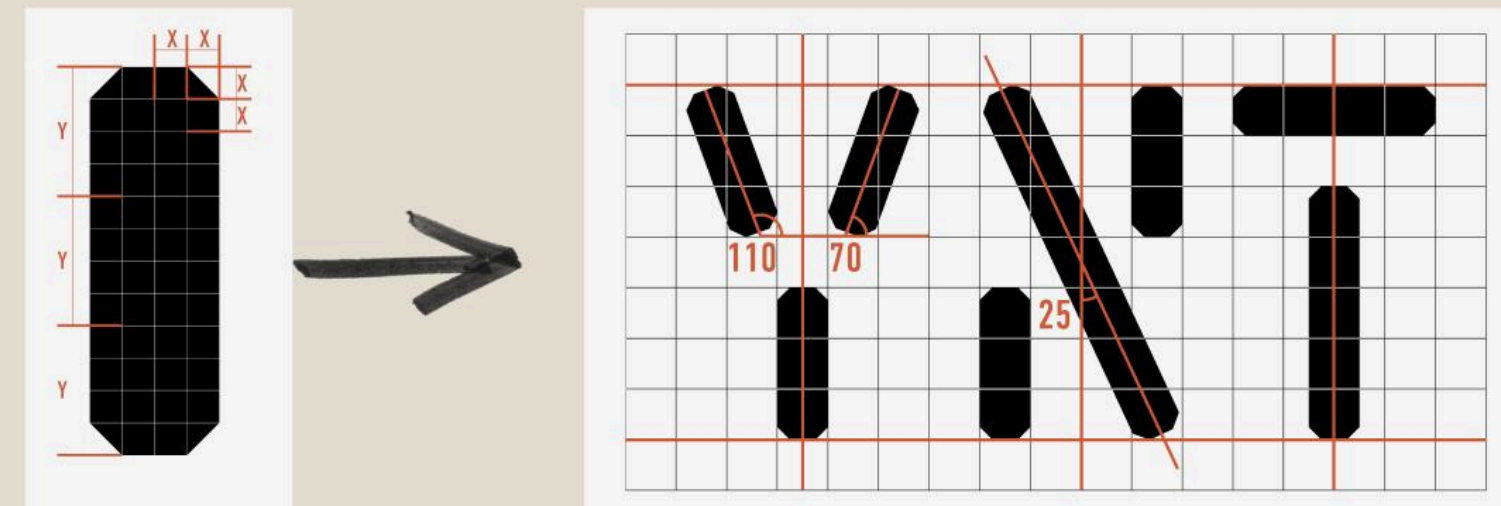

Basic Shape: The primary shape of the icon is composed of 4 connected right-angled triangles.

Basic Shape Height: The height of the basic shape is equal to **16X**.

Logo Silhouette: The logo's silhouette is formed by duplicating the basic shape and retracting specified elements using guidelines based on the intersection of the grid and basic shapes.

14 ATTRIBUTES

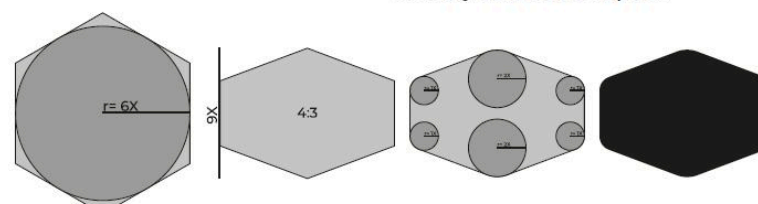

LOGO STRUCTURE

MATERIA TRATTORIA MODERNA

FRAME STRUCTURE

The frame around the logo is optional and serves as a design element. The logo can be used independently without while maintaining its identity and visual impact.

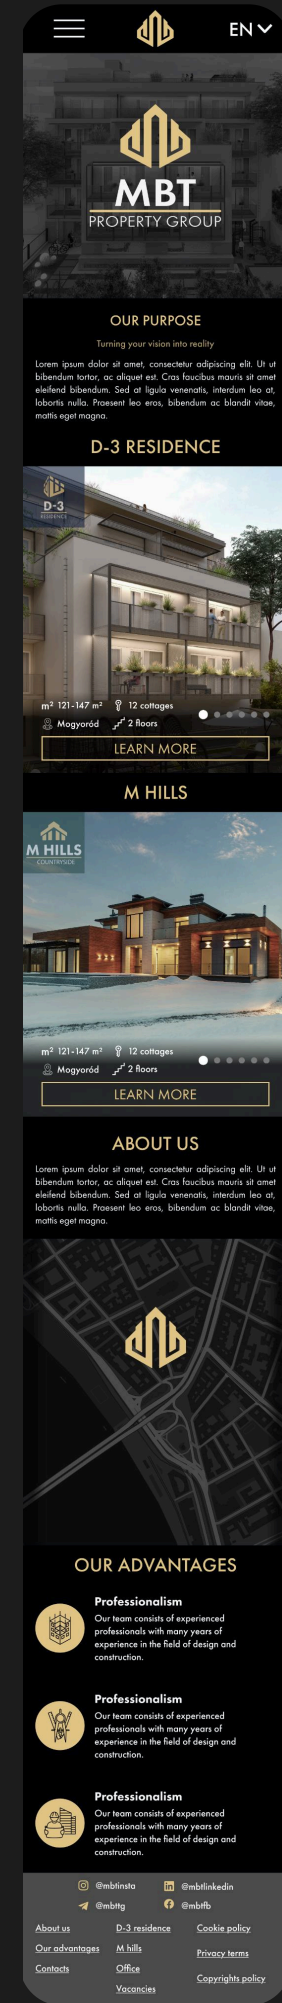

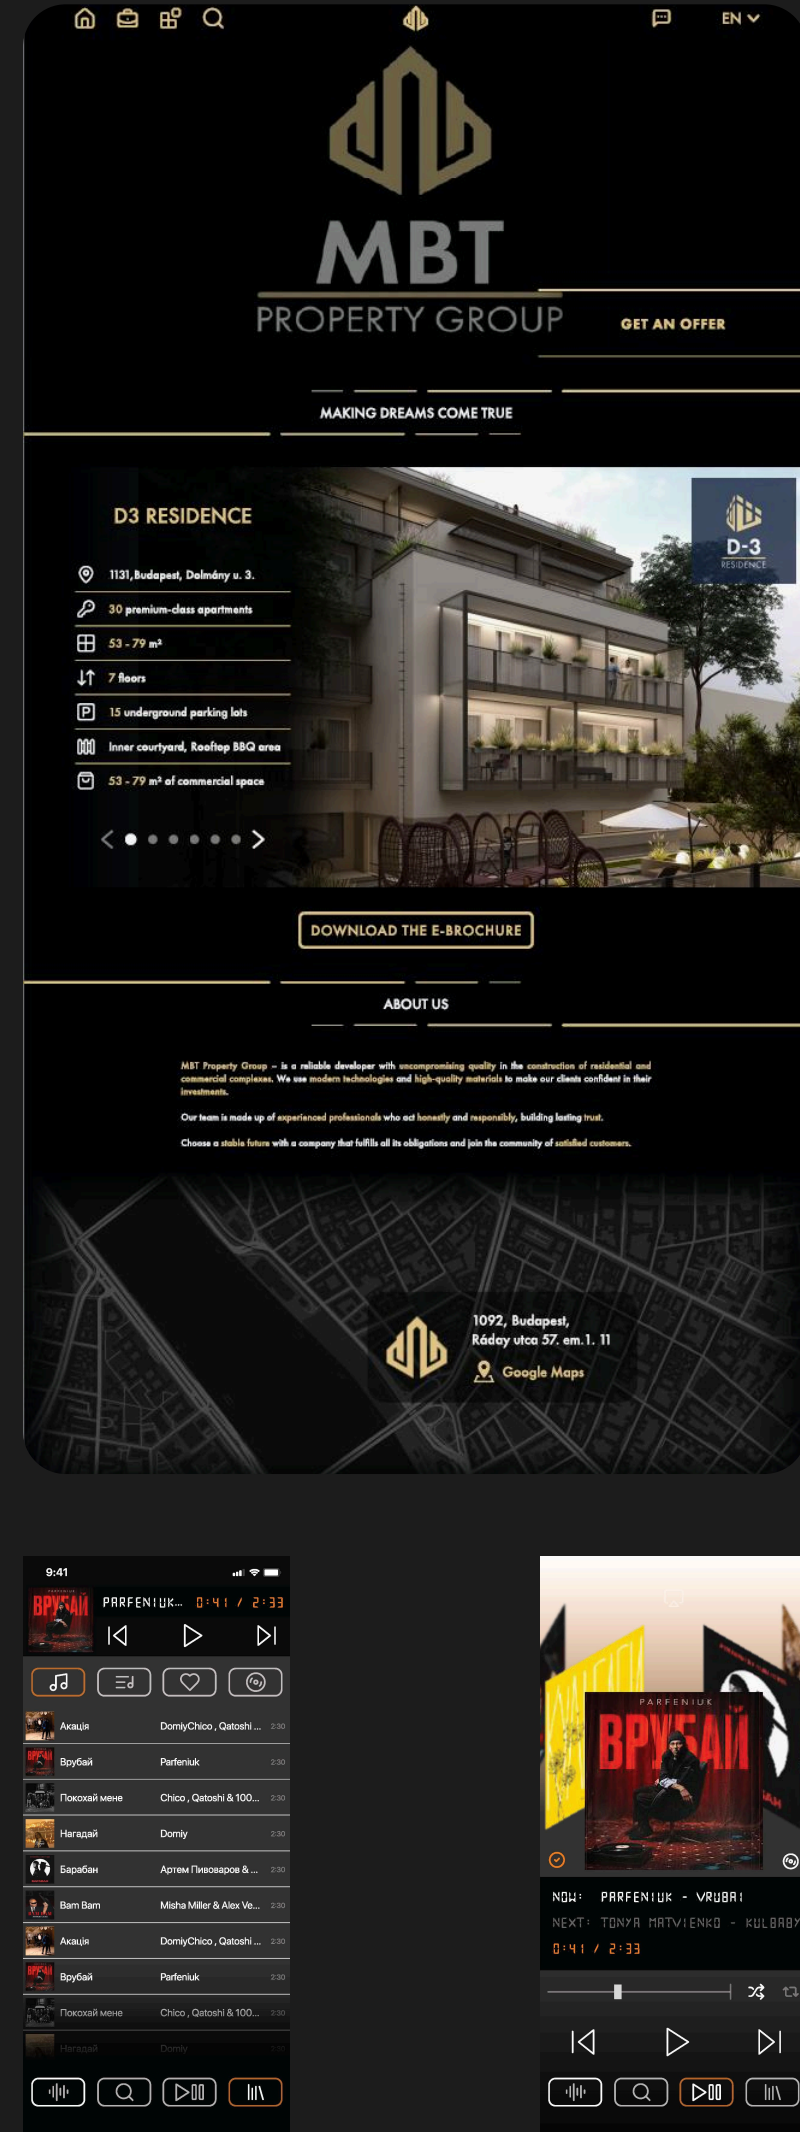

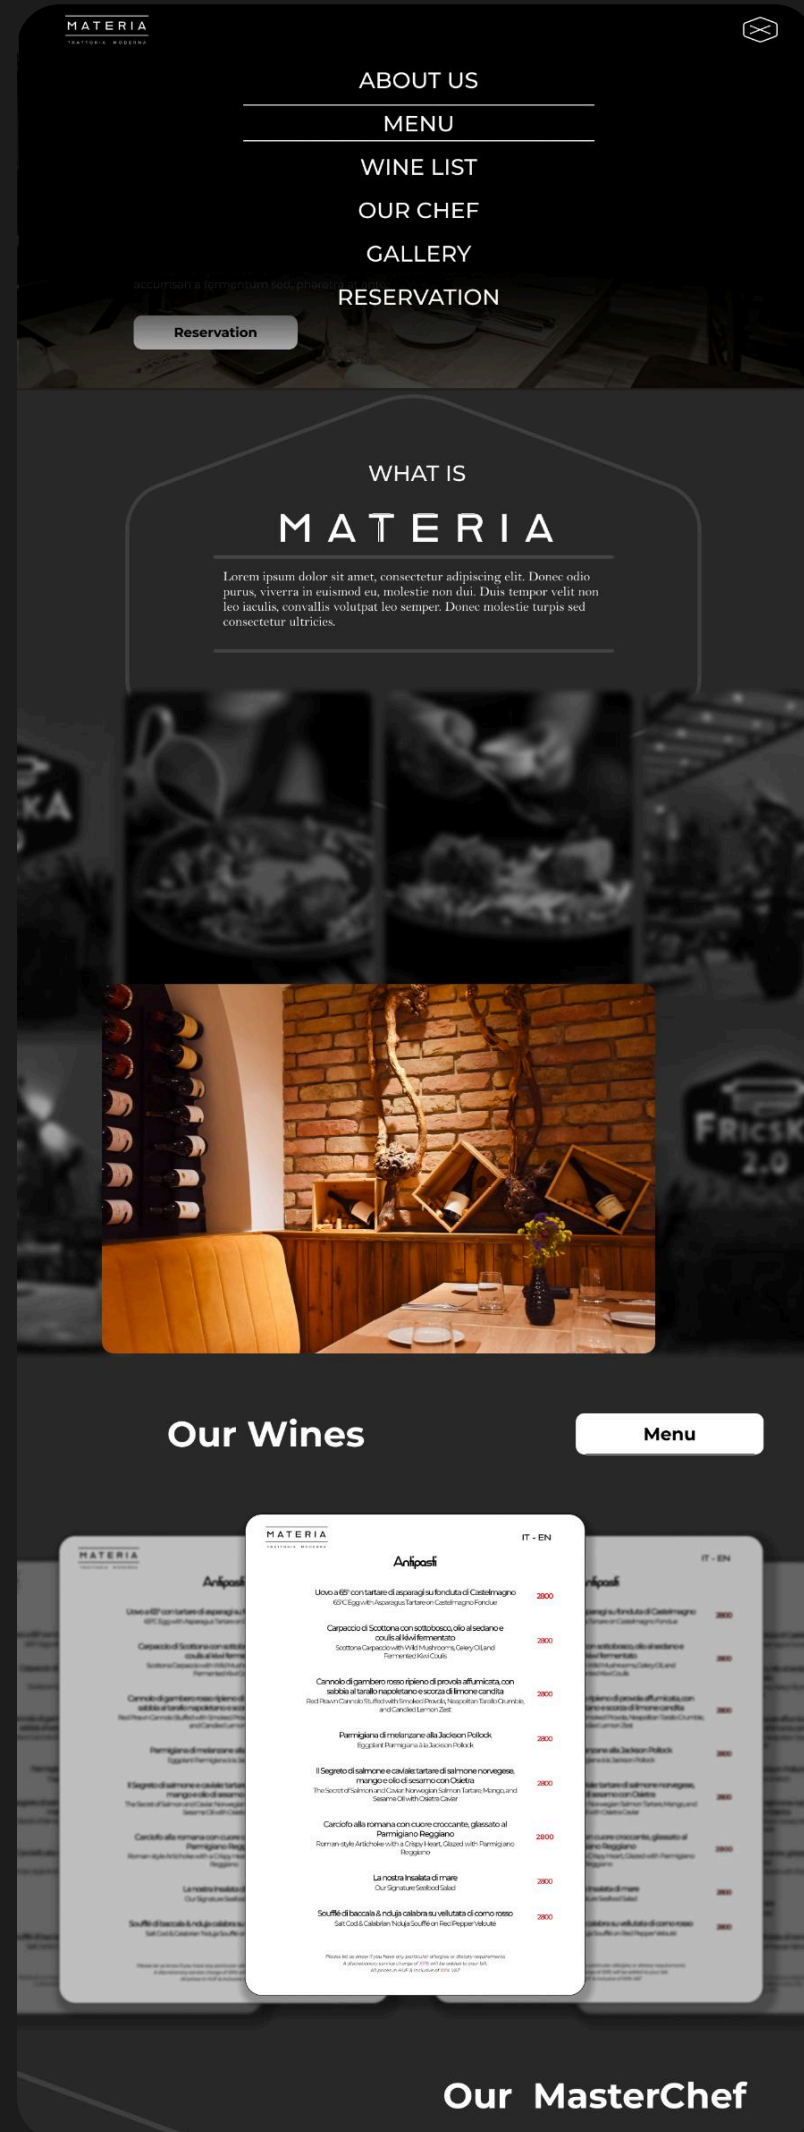

Our team has provided Brand Identity Development alongside SMM Strategy Development, crafting cohesive and memorable brand visuals.

From logo creation and typography selection to color palette design and brand guidelines, we ensure every element aligns with the brand's vision and effectively connects with its target audience across all platforms.

Website and App Design

Our team specializes in **Website and App Design**, creating user-friendly, visually appealing interfaces that provide seamless experiences across all devices. From intuitive navigation to responsive design, we ensure your website or app not only looks great but also functions flawlessly, enhancing user engagement and supporting your business goals.

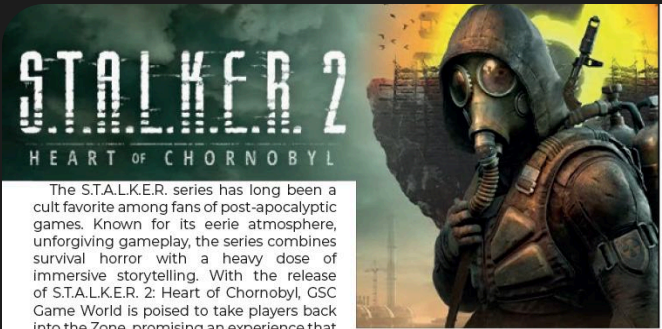

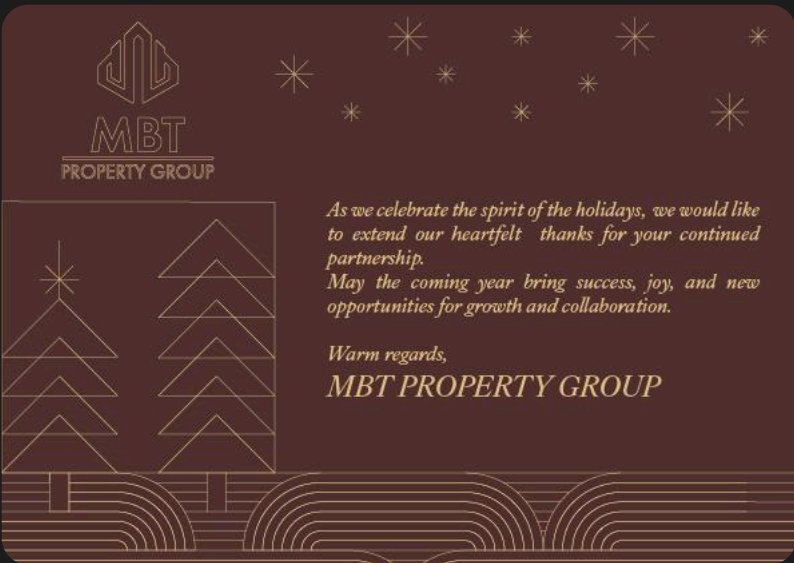

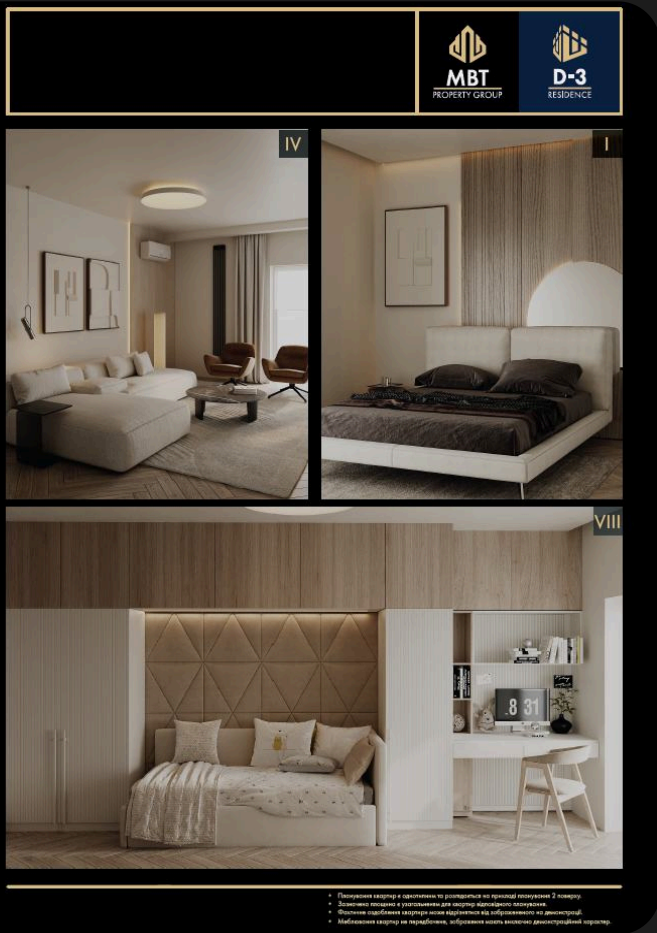

Print Design and Layout

Our team includes experienced graphic designers specializing in the print preparation of multi-page magazines and brochures, delivering professional layouts and print-ready files.

We ensure that our designs are adaptable to current market trends, providing solutions that align seamlessly with your strategy and goals.

The STALKER series has long been a cult favorite among fans of post-apocalyptic games. Known for its eerie atmosphere, unforgiving gameplay, the series combines survival horror with a heavy dose of immersive storytelling. With the release of STALKER 2: Heart of Chornobyl, GSC Game World is poised to take players back into the Zone, promising an experience that feels as fresh as it is familiar.

A Brief History of the STALKER Series

The original STALKER: Shadow of Chernobyl (2007) introduced players to the dangerous and mysterious Zone—a post-apocalyptic version of the real-life Chernobyl Exclusion Zone. The game mixed survival horror, first-person shooter mechanics, and an RPG-like approach to world exploration. With its brutal difficulty, dynamic A-Life system, and haunting atmosphere, it quickly gained a reputation as a one-of-a-kind experience.

The series expanded with STALKER: Clear Sky (2008) and STALKER: Call of Pripyat (2009), which refined the mechanics, expanded the lore, and introduced new factions, mutants, and anomalies. These games built upon the rich atmosphere and deep storytelling, keeping fans engaged with an open-world that felt alive and constantly evolving. Now, after over a decade of waiting, STALKER 2: Heart of Chornobyl marks the series' long-awaited return.

The Heart of Chornobyl Beats Again!

In STALKER 2: Heart of Chornobyl, the stakes have never been higher. The Zone is calling, and players will once again step into the boots of a stalker—an adventurer scavenging the dangerous wastelands filled with mutants, anomalies, and rival factions. The official description promises a non-linear journey through this expansive world, built on the powerful Unreal Engine 5. Motion capture and photogrammetry push the graphical fidelity to new heights, creating an immersive visual experience that is set to define benchmarks in the genre.

The advanced AI system, known as A-Life 2.0, is a core highlight of the game. Players will need to be tactical, using every tool at their disposal to survive the harsh environments. This AI system builds on the original's real-time world simulation, making the game world feel alive and reactive to player choices. Enemies, mutants, and even the weather patterns react dynamically, creating an ever-changing world that feels both unpredictable and personal.

But it's not just the enemies and environment that players will have to contend with. Survival mechanics are deeply woven into the experience. Stalkers will need to manage their resources carefully—food, drinks, meds, and other rare supplies all play a critical role in the fight to survive. This focus on immersive survival gameplay adds another layer of depth to the experience, making every decision count as you explore the branches of a richly detailed storyline. Fans of the original games will feel right at home with Heart of Chornobyl, but it's clear that this is more than just a nostalgic revisit. The leap to next-gen hardware, combined with the improved AI and survival mechanics, suggests a more nuanced and deeply immersive experience. The stunning graphics and atmospheric world design, powered by Unreal Engine 5, give the game an unparalleled sense of realism and tension.

LET'S TALK

Yeah, it's a lot.

But that's the point — we don't do “just enough.”

We do what needs to be done. From the idea to the last click.

If you've got questions, if you're not sure where to start, or if you already know what you want — **just reach out.** We'll figure it out together.
